"Europe" Turned Local - The Local Turned European?

Stavroula Philippou 2012-11-22 This book draws theoretically and methodologically from the sociology of curriculum, educational policy, and comparative education to meta-analyze the findings of nine separate studies exploring constructions of "Europe" in the secondary school curricula of Social Studies from a number of countries: Germany, Greece, France, Poland, Cyprus, Sweden, Ireland, and Northern Ireland, as well as the Autonomous Community of the Basque Country (Spain). The objectives of the book are threefold: first, to explore constructions of "Europe" and "European identity-citizenship" in these countries' curricula; second, to explore whether, and, if so, how these findings indicate a "Europeanization" of national curricula; and third, to discuss the similarities, differences, continuities, discontinuities, and tensions identified when comparing these curricula. ### **IAS Prelims Magic 2013 (Paper 1)**

Global Perspectives on Issues and Solutions in Urban Education Petra A. Robinson 2019-03-01 In 2014, The Urban Education Collaborative at the University of North Carolina at Charlotte hosted its first biennial International Conference on Urban Education (ICUE) in Montego Bay, Jamaica. In 2016, the second hosting of the conference took place in San Juan, Puerto Rico. Additionally, in 2018, the third hosting of the conference took place in Nassau, Bahamas. These solution-focused conferences brought together students, teachers, scholars, public sector and business professionals as well as others from around the world to present their research and best practices on various topics pertaining to urban education. With ICUE's inspiration, this book is a response to the growing need to highlight the multifaceted aspects of urban education particularly focusing on common issues and solutions in urban environments (e.g., family and community engagement, student academic achievement, teacher preparation and professional development, targeted instructional and disciplinary interventions, opportunity gaps, culturally-relevant and sustaining practices, etc.). Additionally, with this book, we seek to better understand the challenges facing urban educators and students and to offer progressive initiatives toward resolutions. This unique compilation

of work is organized under four major themes all targeted at critically addressing concerns that may inhibit the success of urban learners and providing solutions that have implications for curriculum design, development, and delivery; teacher preparation and teaching diverse populations; career readiness and employment; and even more nuanced issues related to foster care, undocumented students and mental health, sustainable consumption, childhood marriage, food deserts, and marine life and urban communities.

**Why Nations Fail** Daron Acemoglu 2012-03-08 Shortlisted

for the Financial Times and Goldman Sachs Business Book of the Year Award 2012. Why are some nations more prosperous than others? Why Nations Fail sets out to answer this question, with a compelling and elegantly argued new theory: that it is not down to climate, geography or culture, but because of institutions. Drawing on an extraordinary range of contemporary and historical examples, from ancient Rome through the Tudors to modern-day China, leading academics Daron Acemoglu and James A. Robinson show that to invest and

prosper, people need to know that if they work hard, they can make money and actually keep it - and this means sound institutions that allow virtuous circles of innovation, expansion and peace. Based on fifteen years of research, and answering the competing arguments of authors ranging from Max Weber to Jeffrey Sachs and Jared Diamond, Acemoglu and Robinson step boldly into the territory of Francis Fukuyama and Ian Morris. They blend economics, politics, history and current affairs to provide a new, powerful and persuasive way of understanding wealth and poverty.
