How Children Learn Linda Pound 2014 An ideal introduction to the

pioneers of educational theory for anyone studying childcare, child

development or education whether at further or higher education level. The

first edition of this book has been a best-seller for almost a decade,

identified as one of the top ten books for students of child development or

early childhood care and education. In this new edition, there is an

increased emphasis on both what practice based on particular theories of

learning looks like and on criticisms of each theory: a new and improved

edition; additional emphasis on what practice looks like; and common

criticisms as well as the influence of each theory. A glossary is included in

sections highlighting words and concepts particular to the theorist in

question. Full-colour photographs are used to illustrate some aspects of

each theory or approach. How Children Learn looks at a wide range of

theorists who have influenced current understandings of how children learn

and what this means for work with young children. The book summarises

the findings and ideas of famous giants such as Montessori and Piaget as

well as the more recent ideas of writers and thinkers such as Howard

Gardner and Margaret Donaldson.

Early Childhood Studies Rod Parker-Rees 2015-07-13 For students of Early Childhood Studies, questions are as important as answers. What is childhood? Is childhood the same in all cultures? How do children grow and develop? What space do we make for children in our society? How do adults approach risk and what does this mean for children? Can children's play be planned by adults? Early Childhood Studies tackles these questions and more. It explores the why, how and what of studying and working with young children and their families, considering how a range of theories can help us to identify useful questions. This is a comprehensive, up-to-date, challenging and accessible core text for the Early Childhood Studies course. Throughout, key theories and research findings are highlighted and explored to help link theory and practice. It covers the important themes of child development, communication, wellbeing, observation, working with parents, inclusive practice, leadership and research. This fourth edition has been fully updated throughout and includes new chapters on children and risk, inclusive learning environments, play and adults' concepts of childhood.

Examination Standards Jo-Anne Baird 2018-09-10 An international team of

authorities in the field of standard setting discuss what standard setting is and should be. Their accounts of a representative selection of jurisdictions (Chile, England, France, Georgia, Ireland, Queensland, South Africa, Sweden, and the United States) are accompanied by lively critical commentaries from other experts in this domain. Together, the editors challenge the notion that there is a single superior way of thinking about national examinations, and instead encourage educators and policymakers to engage with the multiple perspectives offered here, and to consider carefully the complex issues raised.
