Raymond Queneau's Chêne Et Chien
Raymond Queneau 1995 The French writer
Raymond Queneau (1903-1976) is coming
to be recognized as one of the major voices
in 20th-century literature. Although twelve
of his novels have been translated, "Chene
et Chien," considered by specialists to be
the keystone of his oeuvre, has not until
now been available in English. Labeled a -
novel in verse- by Queneau, this
autobiographical poem recounts the poet's
childhood, portions of that childhood
revisited through psychoanalysis, and finally
his joy at finding himself whole. The

translator's introduction situates the work in Queneau's life and oeuvre, addresses the problem of poetry as autobiography, examines the structure of the poem itself and discusses the difficulties of translating Queneau's many moods and rich wordplay into English verse. Explanatory notes complete the volume."

Translating Humour in Audiovisual Texts Gian Luigi De Rosa 2014-12-11 Humour found in audiovisual products is, of course, performative in nature. If we consider instances of humour - any droll moment occurring in today's fare of mixed-genre products as a composite of cognition, emotion, interaction and expression - we see that the verbal code becomes just one component of four equally significant elements. And, as 'expression' is not limited to verbal output alone, humour may of course be created in absence of a verbal code. Translating humour for audiovisuals is not too different from translating verbal humour tout court. What makes humour occurring within audiovisual texts more problematic is the fact that it may be visually anchored; in other words a gag or a joke may pivot on verbal content directed at a specific element that is present within the graphic system of the same text. As the

term itself suggests, audiovisuals contain two overlying structures: a visual and an auditory channel each of which contain a series of both verbal and non-verbal elements which inextricably cross-cut one another. The contributors in this collection of essays present a series of case studies from films and video-games exemplifying problems and solutions to audiovisual humour in the dubs and subs in a variety of language combinations.

The Rhetoric of Topics and Forms Gianna Zocco 2021-01-18 The fourth volume of the collected papers of the ICLA congress “The Many Languages of Comparative Literature” includes articles that study thematic and formal elements of literary texts. Although

the question of prioritizing either the level of content or that of form has often provoked controversies, most contributions here treat them as internally connected. While theoretical considerations inform many of the readings, the main interest of most articles can be described as rhetorical (in the widest sense) – given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor, irony, or satire, but also that of *topoi*, which were originally viewed as the ‘places’ where certain arguments could be found, but later came to represent the arguments or intellectual themes themselves. Another feature shared by most of the articles is the tendency of ‘undeclared thematology’, which not only reflects the persistence of the charge of positivism, but also shows that most scholars prefer to locate themselves within more specific, often interdisciplinary fields of literary

study. In this sense, this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology, but provides contributions to currently flourishing research areas, among them literary multilingualism, literature and emotions, and ecocriticism.

[The Routledge Handbook of Spanish Translation Studies](#) Roberto A. Valdeón

2019-05-28 Written by leading experts in the area, The Routledge Handbook of Spanish Translation Studies brings together original contributions representing a culmination of the extensive research to-date within the field of Spanish Translation Studies. The Handbook covers a variety of translation related issues, both theoretical

and practical, providing an overview of the field and establishing directions for future research. It starts by looking at the history of translation in Spain, the Americas during the colonial period and Latin America, and then moves on to discuss well-established areas of research such as literary translation and audiovisual translation, at which Spanish researchers have excelled. It also provides state-of-the-art information on new topics such as the interface between translation and humour on the one hand, and the translation of comics on the other. This Handbook is an indispensable resource for postgraduate students and researchers of translation studies.

The Bilingual Text Jan Walsh Hokenson
2014-06-03 Bilingual texts have been left outside the mainstream of both translation theory and literary history. Yet the tradition of the bilingual writer, moving between different sign systems and audiences to

create a text in two languages, is a rich and venerable one, going back at least to the Middle Ages. The self-translated, bilingual text was commonplace in the multilingual world of medieval and early modern Europe, frequently bridging Latin and the vernaculars. While self-translation persisted among cultured elites, it diminished during the consolidation of the nation-states, in the long era of nationalistic monolingualism, only to resurge in the postcolonial era. The Bilingual Text makes a first step toward providing the fields of translation studies and comparative literature with a comprehensive account of literary self-translation in the West. It tracks the shifting paradigms of bilinguality across the centuries and addresses the urgent questions that the bilingual text raises for translation theorists today: Is each part of the bilingual text a separate, original creation or is each incomplete without the

other? Is self-translation a unique genre? Can either version be split off into a single language or literary tradition? How can two linguistic versions of a text be fitted into standard models of foreign and domestic texts and cultures? Because such texts defeat standard categories of analysis, The Bilingual Text reverses the usual critical gaze, highlighting not dissimilarities but continuities across versions, allowing for dissimilarities within orders of correspondence, and englobing the literary as well as linguistic and cultural dimensions of the text. Emphasizing the arcs of historical change in concepts of language and translation that inform each case study, The Bilingual Text examines the perdurance of this phenomenon in Western societies and literatures.

Hannibal Richard A. Gabriel 2011-02-28

The Romans' destruction of Carthage after the Third Punic War erased any Carthaginian historical record of Hannibal's life. What we know of him comes exclusively from Roman historians who had every interest in minimizing his success, exaggerating his failures, and disparaging his character. The charges leveled against Hannibal include

greed, cruelty and atrocity, sexual indulgence, and even cannibalism. But even these sources were forced to grudgingly admit to Hannibal's military genius, if only to make their eventual victory over him appear greater. Yet there is no doubt that Hannibal was the greatest Carthaginian general of the Second Punic War. When he did not defeat them outright, he fought to a standstill the best generals Rome produced, and he sustained his army in the field for sixteen long years without mutiny or desertion. Hannibal was a first-rate tactician, only a somewhat lesser strategist, and the greatest enemy Rome ever faced. When he at last met defeat at the hands of the Roman general Scipio, it was against an experienced officer who had to strengthen and reconfigure the Roman legion and invent mobile tactics in order to succeed. Even so, Scipio's victory at Zama was against an army that was a shadow of its

former self. The battle could easily have gone the other way. If it had, the history of the West would have been changed in ways that can only be imagined. Richard A. Gabriel's brilliant new biography shows how Hannibal's genius nearly unseated the Roman Empire.

Racial Discrimination Masoud Kamali

2010-08-18 There is an institutionalized dilemma in Europe that counteracts social cohesion and stability. It is a result of the collision and incompatibility between declarations of universal values (such as human rights and democracy) and institutionalized actions which exclude and discriminate against Europeans of immigrant background and against ethnic minorities. This book analyzes the institutional patterns and politics of 'racial' discrimination in modern-day Europe. Based on a research project that has been carried out under the leadership of the author in eight European countries, *Racial Discrimination* seeks the answers to some of the key questions posed by the latest developments in European political and

public spheres concerning immigration and the increase in xenophobic sentiments and parties. The book will appeal to all social and political scientists interested in the latest political developments in Europe and in the problems of democratic citizenship and the efforts to move toward an integrated European community.

Immigrant Generations, Media Representations, and Audiences

Omotayo O. Banjo 2021-09-27 This anthology examines how immigrants and their US-born children use media to negotiate their American identity and how audiences engage with mediated narratives about the immigrant experience (cultural adjustments, language use, and the like). Where this work diverges from other collections and monographs is the area is its intentional focus on how both first- and second-generation Americans' complex identities and hybrid cultures interact with

mediated narratives in general, alongside the extent to which these narratives reflect their experience. In a three-part structure, the collection examines representations, "zooms in" to explore the reception of these narratives through autoethnographic essays, and concludes in a section of analysis and critique of specific media.

Memory Speaks Julie Sedivy 2021-10-19
From an award-winning writer and linguist, a scientific and personal meditation on the phenomenon of language loss and the

possibility of renewal. As a child Julie Sedivy left Czechoslovakia for Canada, and English soon took over her life. By early adulthood she spoke Czech rarely and badly, and when her father died unexpectedly, she lost not only a beloved parent but also her firmest point of connection to her native language. As Sedivy realized, more is at stake here than the loss of language: there is also the loss of identity. Language is an important part of adaptation to a new culture, and immigrants everywhere face pressure to assimilate. Recognizing this tension, Sedivy set out to understand the science of language loss and the potential for renewal. In *Memory Speaks*, she takes on the psychological and social world of multilingualism, exploring the human brain's capacity to learn—and forget—languages at various stages of life. But while studies of multilingual experience provide resources for the teaching and preservation of

languages, Sedivy finds that the challenges facing multilingual people are largely political. Countering the widespread view that linguistic pluralism splinters loyalties and communities, Sedivy argues that the struggle to remain connected to an ancestral language and culture is a site of common ground, as people from all backgrounds can recognize the crucial role of language in forming a sense of self.

Distinctive and timely, *Memory Speaks* combines a rich body of psychological research with a moving story at once personal and universally resonant. As citizens debate the merits of bilingual education, as the world's less dominant languages are driven to extinction, and as many people confront the pain of language loss, this is badly needed wisdom.
