Carroll Shelby Art Evans 2016-09-15 Art Evans was a sports car racer in the 1950s on the West Coast who raced against, and became close friends with, Carroll Shelby. Their intense competition on the track became a lifelong friendship off the track. He and Shelby collaborated on many business projects over the years, including books, marketing projects, projects for the Shelby Foundation, and so on. In his later years, Shelby loved the books about his cars and similar topics, but his eyesight was failing to the point where he had difficulty reading, and really preferred the books that were heavy with photos. It was from that realization that Shelby and Evans decided to work on one last book together. They both combed through the Shelby archives and selected Shelby's favorite images from his racing career. That is almost the entirety of this book. It is packed with photos selected by Shelby himself, and the captions are quotes from Shelby's commentary on the action in the photo, as well as his memories. Unfortunately, Carroll Shelby passed away before the book was fully completed, but Evans, following Shelby's instructions, carried this final project through to completion. Filled with images that have never been seen in print, as well as images not published since the 1950s and 1960s, this final work from Shelby is a personally curated collection by the legend himself. If you are a sports car racing fan, Ford fan, Shelby fan, or any combination of the three, this book is a perfect addition to your automotive library.

Vintage American Road Racing Cars 1950-1969 Harold Pace Mark R. Brinker American road racing began just after World War II and quickly blossomed into a movement. The Sports Car Club of America (SCCA) and the United States Auto Club (USAC), clubs that became fierce rivals in the 1950s and 1960s, were the principal race promoters. Race tracks popped up everywhere, at first on city streets, then at airports and U.S. Air Force bases, and finally at purpose-built circuits like Road America and Laguna Seca. Although most of the cars that competed in American road racing were built in Europe, an underground movement sprang up of "special builders" who constructed their racers in home garages and small-town machine shops. Some were so homely and slow that only the builders could love them. Others trounced every Ferrari in sight and are now on the wish lists of wealthy collectors the world over. **Vintage American Road Racing Cars 1950-1970** is the first book devoted exclusively to American road racing cars of all types and sizes. Hundreds of race cars built in America have never before been mentioned in print, and this book chronicles those and other cars with vintage and modern photography, specifications, memorabilia, and the stories and characters behind each car. About the Author Harold Pace's writing and photography has appeared in such magazines as *Automobile Quarterly*, *Class & Sportscar*, *Excellence*, *Sports Car International*, *Vintage Racecar Journal*, and others. He lives in Weatherford, Texas. Mark Brinker is a vintage race car enthusiast who has raced at the Monterey Historics. He is a doctor with three published medical textbooks and 70+ published scientific papers. He hails from Houston, Texas.

Shelby Mustang Fifty Years Colin Comer 2014-09-15 Celebrate America's premier performance car! From the original Shelby Mustang GT350 to today's 700-plus horsepower GT500, Carroll Shelby and Ford Motor Co. have defined high-performance with their Shelby Mustangs. Shelby built his Mustangs from 1965 until 1970, at a time when it seemed that the muscle car was a dying breed. Then an odd thing happened—people began to realize the classic nature of the car almost as soon as Shelby stopped building them and prices began to climb. By the end of the decade, the Shelby Mustang had become one of the first muscle cars to attain classic status, along with the price hike that went along with that recognition. Prices continued to rise into the next century; a 1967 Shelby Mustang GT500 fetched \$451,000 at auction in 2006, at which time production of new Shelby Mustangs began for the first time in 36 years. Since then prices have cooled a bit, but not nearly as much as they have for other muscle cars; Shelby Mustangs still occupy the top slot at most auctions and Shelby continues to build the popular modern versions of the Mustang today. **Shelby Mustang: Fifty Years**, lavishly illustrated with rare historic photography and modern color images, tells the story of these amazing cars, from the initial collaboration with Ford to today's record-setting high-tech muscle cars.

Steve McQueen touched the world through his larger-than-life onscreen persona portraying characters that were flawed and realistic. He played his roles to perfection due to his own imperfections and the bitter realism of his early life. As he once said, he had seemingly lived an entire lifetime before his 18th birthday, all of which shines through in his signature blue-eyed icy stares. The Carroll Shelby Story Carroll Shelby 2019-11-15 Hear from racing legend, Carroll Shelby, in his own words in his exciting memoir. Carroll Shelby wasn't born to run. He was born to race—some of the fastest cars ever to tear up a speedway. The exciting new feature film Ford v Ferrari--starring Matt Damon as Shelby and Christian Bale as fellow racer Ken Miles--immortalizes the small-town Texas boy who won the notorious Le Mans 24-hour endurance challenge, and changed the face of auto racing with the Shelby Cobra. But there's much more to his high-velocity, history-making story. A wizard behind the wheel, he was also a visionary designer of speed machines that ruled the racetrack and the road. While his GT40s racked up victories in the world's most prestigious professional racing showdowns, his masterpiece, the Ford Cobra, gave Europe's formidable Ferrari an American--style run for its money. If you've got a need for speed, strap in next to the man who put his foot down on the pedal, kept his eyes on the prize, and never looked back.

The First Three Shelby Cobras Gordon Bruce 2018-04-17 The First Three Shelby Cobras, the third book in the acclaimed Exceptional Cars series, tells the story of three remarkable cars, the first AC Cobras created by the legendary Carroll Shelby in 1962 and now favorites of sports-car enthusiasts throughout the world. The prototype CSX2000 has been described as the "most important American car", although it was built on a British AC Ace chassis with an American Ford V8 engine. It was retained by the Shelby family until 2016, when it sold at auction for a record \$13.75 million. CSX2001 was the first production Cobra, and was delivered to American racing driver Ed Hugus. It was later sold to Frenchman Jean-Marie Vincent, who raced in the Tour de France and in numerous European hillclimbs. CSX2002 was the first Cobra to race and nearly won its inaugural outing at Riverside, driven by Bill Krause, until sidelined by a broken rear hub. It did take the first ever Cobra win, with Dave MacDonald at Tucson in March 1963. Its success led to a series of competition wins that made Shelby's Cobras famous and admired across the globe. All three cars are now the pride of car collections in the United States of America. CSX2000 and CSX2002 are part of the Larry Miller Collection, and CSX2001 belongs to California-based motorsport aficionado Bruce Meyer.

Carroll Shelby Rinsey Mills 2014-03-15 The definitive record of the twentieth century's preeminent car builder and racer is now available in an updated paperback edition. It was motoring author Rinsey Mills' passion for AC cars and motorsports history that led to his first meeting with Carroll Shelby. His suggestion that they should collaborate in order to create an accurate record of Shelby's life and achievements at first was rebuffed but later taken up with enthusiasm. This authorized biography is the result. Carroll Shelby: The Authorized Biography was a long time in the making, as Mills left no stone unturned in his quest to produce the complete study of Shelby's remarkable life. He carried out extensive research and conducted numerous interviews, fully capturing the narrative of Carroll Shelby within and outside of the automotive racing world: his childhood in Texas, wartime tenure with the Army Air Force, and postwar entrepreneurship; his earliest race wins in 1952 and his legendary 1959 victory at the 24 Hours of Le Mans; his monumental release of the first Cobra and the formation of Shelby American in 1962; his historical partnership with Ford that would last for decades; all the way through to Shelby's personal hobbies, travels, and present-day legacy. Fascinating photographs from Shelby's personal collection complete a book whose original hardcover edition was published mere weeks before his passing, making Carroll Shelby: The Authorized Biography a magnificent and lasting tribute to one of the greatest automotive figures of the twentieth century.

The last Shelby Cobra Chris Theodore 2021-09-15 Carroll Shelby, legendary driving ace, race team owner, and designer of Shelby Cobra, Daytona, and Mustang GT350 classics is revered by automotive enthusiasts, yet little has been written about the last quarter century of Carroll Shelby's life. During that time Chris Theodore, VP at Chrysler and Ford, developed a close personal friendship with Carroll. The Last Shelby Cobra chronicles the development of the many vehicles they worked on together (Viper, Ford GT, Shelby Cobra Concept, Shelby GR1, Shelby GT500 and others). It is an insider's story about how Shelby came back to the Ford family, and the intrigue behind the five-year journey to get a Shelby badge on a Ford Production Vehicle. The author provides fresh insight and new stories into Shelby's larger-than-life personality, energy, interests and the many unpublished projects Carroll was involved with, up to his passing. Finally, the book describes their unfinished project, the Super Snake II Cobra, and the serendipitous circumstances that allowed to the author to acquire 'Daisy,' the last Shelby Cobra. To his many fans, Carroll Shelby was truly 'the most interesting man in the world.' **Engineer to Win** Carroll Smith 1984 "Is titanium for you? Can better brakes reduce lap times significantly? How do you choose the rights nuts and bolts? Which is more important, cornering or straight-line speed? Why did it break again? Engineer to Win not only answers these and many other questions, it gives you the reasons why."--Back cover

Shelby American Up Close and Behind the Scenes Dave Friedman 2017-09-12 In 1962 retired racing great Carroll Shelby was looking for his next big move. He'd started a racing school at Riverside Raceway in California, but he really wanted to build his own sports and racing car. He found a promising platform in the British AC Ace, and set about stuffing an American V-8 between the AC's dainty fenders. Thus was born the Shelby Cobra. Shelby set up shop in Venice, California, later in 1962, marking the beginning of the classic Cobra era. It was a near supernatural combination of brilliant designers and wrenches, ever-faster cars, championship-winning teams and drivers, and sheer chutzpah. The Venice shop spawned the 289 Cobra, Daytona Coupe, 427 Cobra, Mustang GT350, Sunbeam Tiger, and more. Eventually the Venice facility could not handle the work, especially when Ford tapped Shelby to create a high-performance version of its new and wildly successful Mustang. Moving to a larger facility and the closer relationship with Ford seemed to diminish the fast and loose nature of the original enterprise. Some of the mojo was lost. Shelby American Up Close and Behind the Scenes takes the reader inside the Venice shop in the critical 1962-1965 period. Author/photographer Dave Friedman was Shelby's official shooter, and he documented everything from Cobra construction to paddock wrenching to race wins. The book is an insider's look via Friedman's documentary photography and first-person stories from Shelby's key players. It's a must-have review of this critical period in both Shelby's history and the history of American racing.

The Complete Book of Shelby Automobiles Colin Comer
Memoirs of a Failure Tom Jennings 2022-05-04 Memoirs of a Failure is like no other Hollywood memoir. It is the autobiography of a Hollywood agent and former casting director, Tom Jennings, whose personal demons provide a cautionary tale about the pitfalls of hubris and how to stay out of them. After the University of Illinois, Jennings moved to LA and two years later became a top casting director, first at Universal and then at Warner Brothers. Always fast out of the gate. He was then talked into starting a talent agency with Walter Beakel, which they parlayed into some early success and became one of the top boutique agencies in Hollywood with a partner in London. At its peak, Beakel and Jennings represented stars on The Dukes of Hazard, Charlie's Angels, Happy Days and many more series; writers such as Irving Stone and Taylor Caldwell, musicians Burl Ives and Gene Simmons, DJ Rick Dees, athletes Dick Butkus and Bubba Smith, and comedians Foster Brooks, Henny Youngman, and Buddy Hackett, as well as future super star Julian Fellowes. Uber agent status was next. A bright star appeared on the horizon. Or was that a nuclear explosion? Explosion it was. Alcohol fueled business deals unraveled at an alarming rate. The Hobbit, Bat Man, The Blues Brothers, Red Star Over China, Norton and Ali, King Tut, Blitz, Dracula and several others fell through the cracks and became missed opportunities later championed by others. The movers and shakers of the time would have made them happen; Beakel and Jennings had them first, but were too busy figuring things out over cocktails at The Rangoon Racket Club, or The Polo Lounge. Worst of all was the chronic illness of his youngest son, Hugo, who developed epilepsy, which changed his life completely, as well as his Dad's. In 1969 Jennings was on the fast track. In 1993 he was by himself living in his brother's fourteen foot duck hunting trailer. What went wrong? This book answers that question.
