In short, don't you think it is about time for you to get into your best shape-and give yourself the chance to feel fit, healthy, and happy at the same time? Well, that can happen NOW! LEARN ABOUT THE RIGHT WAYS TO STAY IN SHAPE! You see, there are so many supplements and products in the market that promise to give you your best body in no time. But more often than not, those "promises" just turn out to be broken-and in the long run, you'll just find yourself wishing you did not believe them in the first place. This book won't give you any unnecessary promises, but rather would help you understand that you have it in you to change the course of your life-and your body! With the help of this book, you'd learn all about weight training-what it is, how it can turn things around for your body, and what kind of systems you can try so you could get into your best shape. "BUT I AM NOT STRONG ENOUGH" I know. You may feel like "Weight Training" is such a strong word, but as you come to read this book, you will realize that with enough power and commitment, it is so possible to follow various weight training systems, such as: *HIIT, or High Intensity Interval Training; *Kinobody; *Crossfit; *P90x, and others! You'll understand what each of these systems mean, and by doing so, you would be able to choose the system that you feel would work best for you-based on your body type, the activities you're used to doing, and how you think these systems would fit right into your schedule! Lots to look forward to! But of course, getting in shape does not just end with choosing a good weight training system. It always has to be a holistic process-so you'd know that what you're doing would actually work not just at the present moment, but more so in the long run! By reading this book, you would also learn about: *The Ketogenic Diet-and why it works best with weight training; *Intermittent Fasting-more popularly known as IF; *How to count calories, and measure your own levels of body fats; *Paleo, Atkins, and other types of diets you could try, and so much more! You will then realize that while weight training is not one of those "miracle cures" that promise to give you a healthy body in just a day or so, it is in fact, so much better! It all starts with YOU! It is never too early to start taking care of your body-more so, doing it the right way. Why subject yourself to processes that you're not even sure are healthy and legal? If you really want to get in shape, and be the best version of you that you can be, then it is just the right time to start! It is up to you to decide how you'd want to honor your body. You see, not only will you be able to learn about weight training while reading this book, but you'll also understand how food works to make this all possible. [Coconuts and Kettlebells](#) Noelle Tarr 2018-08-07 Created by the expert hosts of the

popular Well-Fed Women Podcast, a step-by-step food and fitness plan for women, that teaches them how to improve their health by changing the quality—not the quantity—of the food they eat. To eat your way to better health, you don't need to limit your calorie intake, or cut out carbs or fat. You don't need to count "points." Better health doesn't come from limits. It comes from focusing on the quality of food that you eat—not the quantity. Instead of limiting your food intake you should be enriching it, argue Noelle Tarr and Stefani Ruper. The popular hosts of the Well-Fed Women Podcast want you to focus on the good things you eat. They want to make sure you get enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know about eating for health firsthand. They, too, struggled with confusing and frustrating medical conditions, including infertility, digestive issues, acne, polycystic ovarian syndrome, hypothyroidism, and anemia. They discovered that the secret to improving wellness was actually more food: they ditched the diet books, calorie counters, and scales, and started eating their way to health. In Coconuts and Kettlebells, you'll eat at least 2,000 calories a day thanks to a delicious selection of dishes that are all gluten-free, grain-free, and paleo. Within those 2,000 calories, setting a minimum intakes of protein, fat, and carbohydrates instead of the usual maximums will ensure that your diet is full of nutrients, while also providing flexibility to enjoy what you're eating. Noelle and Stefani identify the Big Four foods—grains, dairy, vegetable oils, and refined sugar—that cause the most health problems among women. While many diets require you to eliminate these foods entirely, Coconuts and Kettlebells provides an easy-to-follow step-by-step program to test these foods and determine which you need to cut back on—and which you don't—to feel better. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for the Butter Lover (people who tend to feel more satisfied eating higher ratios of fats) and one for the Bread Lover (people who tend to feel more satisfied eating higher ratios of carbs). Each meal plan comes with a weekly shopping list, a guide to kitchen tools and equipment, and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you'll have access to over 75 gluten-free and paleo-friendly flavor-packed recipes (free of the Big Four foods) for every meal of the day, including: Coconut Chai Latte Kale and Bacon Breakfast Skillet Apple Pie Smoothie Thai Coconut Curry Shrimp Moroccan Lamb Meatballs Shrimp and Cabbage Stir Fry Parsnip and Carrot Fries Mango Jalapeno Salsa Chocolate Cherry Energy Bites Lemon Raspberry Mini Cheesecakes To go along with the meal plans, Noelle and Stefani also provide three 4-week fitness plans tailored to three experience levels: beginner, intermediate, and advanced. All of the workouts can be done anywhere—at your home or on the road—and take no more than thirty minutes. A comprehensive whole body program to get and keep you healthy inside and out, Coconuts and Kettlebells provides the knowledge and tools you need to heal in a way that is effortless, rewarding, confidence-boosting, and everlasting. Coconuts and Kettlebells is illustrated with color photos throughout.

The Whiteboard Daily Book of Cues Karl Eagleman 2022-07-26 There is no such thing as a “golden cue” that works for everyone 100% of the time. Therefore, the more cues a coach has in their toolbox, the more likely they will be able to effectively communicate with their athletes. Coaches use cues—short, easy-to-remember phrases—to help athletes perform movements correctly as well as to convey useful sports psychology perspectives. Athletes commonly hear movement cues like “Crush the Can” and “Grip the Ground” along with motivational cues like “Consistency is King.” A passionate coach, lifelong athlete, and advanced degree holder in kinesiology, Karl Eagleman, creator of the popular Whiteboard Daily Instagram, has put together a valuable resource for coaches, athletes, and anyone who wants to improve their own movement. The Whiteboard Daily Book of Cues contains a comprehensive collection of illustrations drawn on a whiteboard—a medium that virtually all coaches are familiar with. It boasts the largest list of cues ever compiled, covering Olympic weightlifting, powerlifting, gymnastics, kettlebell exercises, and monostructural movements (running, rowing, jumping rope, etc.). Each illustration is hand drawn in a simple, stylized way to make the cues easy to retain and to utilize during training. No two athletes are the same; we all learn in our own unique ways. By providing hundreds of cues, this book will help coaches and athletes learn a new way to understand movement for themselves and/or to communicate safe, effective movement to others.
