**The Walkthrough** Doug Walsh 2019-05-16 The Walkthrough offers a rare peek behind the curtain of the secretive video game industry from an unlikely perspective, that of a career strategy guide writer. For eighteen years, Doug Walsh was one of the most prolific authors of officially licensed video game strategy guides. One part memoir and one part industry tell-all, The Walkthrough takes players on an entertaining march through gaming’s recent history, from the dawn of the PlayStation to the Xbox 360 and Nintendo Switch. Follow along as Walsh retraces his career and reveals how the books were made, what it was like writing guides to some of the industry’s most celebrated — and derided — titles, and why the biggest publishers of guidebooks are no longer around. Walsh devotes entire chapters to many of gaming’s most popular franchises, including Tony Hawk’s Pro Skater, Gears of War, and Diablo, among others. From inauspicious beginnings with Daikatana to authoring the books for the entire Bioshock trilogy, with plenty of highs, lows, and Warp Pipes along the way, Walsh delivers a rare treat to twenty-first century gamers. The Walkthrough is sure to satisfy the curiosity of anyone who grew up with the works of BradyGames and Prima Games sprawled across their laps. With over one hundred books to his credit, and countless weeks spent at many of the most famous studios in North America, he is uniquely qualified to give an insider’s perspective of a little-known niche within the multi-billion-dollar industry.

**The Official Guide to Cut-Downs and Comebacks: Words Edition** William Donald Barnwell 2016-08-15 Have you ever been in a situation where you needed to defend yourself, or others, but just didn't have the right words to do so? Of course, a few hours later, when you replay the situation in your mind, the perfect response comes to you. "If I had only said that I would've been a hero!" Yes, we've all been there, and it's a helpless feeling because you know that the instantly has passed for good. For all intents and purposes, you lost. In this book, you'll get a full breakdown of the ways to come right back to those individuals who are attempting to cut you down. You'll discover clever ways to momentarily dominate any situation where another person is trying to insult you or your friends. You'll quickly become a master of the craft and be able to call upon these comebacks, or come up with your own using this proven formula, at any time. No more regrets, no more shoulda-coulda-wouldas. No more losing. Consider this comeback system as your compass that allows you to navigate the rough terrain we call social class and order. I wrote this book because you needed support from someone who has been there before. Know that I have a personal stake in this and have tapped back into my own childhood and current everyday life to try and understand both sides of this natural phenomenon. The defenseless need defending. The common person needs armor and weapons when it is their time to attack. You are my inspiration for this. Here's how it works: At the top of the page there will be a cut-down, directly below will be a brief insight into the cut-down, and at the bottom, there will be several different comebacks to the cut-down. The following pages will change your life for the better. The time for lying down is over. The time has come for a shift in power. It's time for a new hero-story to be written. Is it your time? Will you be that hero? It is yours for the taking if you are ready. Are you ready?

**League of Legends Mid Lane Mastery** St Petr 2016-12-02 As a Master Tier player on both EUW and EUNE servers that cares deeply about the state of League of Legends, I had enough of the lack of high quality educational material about the game. So about a year ago, I used my experience as a real life teacher and high elo player and wrote what turned out to be the best selling ebook about improving at League of Legends on Amazon for Season 6 - 30 Days to Diamond. By the way - an improved, enriched and even more detailed version for Season 7 is out and it's called 21 Days to Diamond and Beyond. Ever since the book delivered on the results it promised, I've received dozens of requests from players asking me to write separate, very detailed books about the roles of ADC, Mid lane, Top lane and Jungle that would be adapted for Season 7. Due to the support I got from my dear readers, I felt motivated to roll up my sleeves and produce the best of my work as a results-oriented League of Legends coach. After countless hours of hard work, I am proud to announce that each of the books people wanted me to write is now available to anyone that is open to learning and is willing to get to that next level as a player in their favorite role. So why is League of Legends Mid Lane Mastery worth your time? If you are still paying attention, I am assuming you are an ambitious, competitive person with a winner's mindset that is interested in acquiring all the necessary game knowledge that will help you improve massively as a Mid lane main. Here is a list of the contributions that this book will make towards your current level of game knowledge: - You will learn what the Mid laner's role and responsibilities are, and there are a lot of specific instructions on what you can do to develop each quality, especially towards the end of the chapter. This includes map awareness, leadership, shot calling and more. - You will learn how to model your champion pool for Mid lane (yes, there is a best way to do it) and how to overcome the disadvantages of facing lane counters. - You will learn the optimal Runes and Masteries setup for each popular Mid laner. - You will learn the intricacies of what you can do to acquire outstanding farming skills. - You will learn the wave management techniques for Mid lane which will help you build a massive advantage over your opponent. - You will learn all you need to know about vision control, which includes the best warding spots for Mid lane on both sides. - You will learn the various ways in which you can influence your Jungler to gank for you more often and give you the Blue Buff every time. - You will learn all you need to know about dominating your trades and how to trade against short-ranged, medium-ranged and long-ranged opponents. - You will learn multiple other principles to dominating the Mid lane (refer to the table of contents). - You will learn the various approaches you should use to extend your advantage and carry your games to victory. - You will also learn all the details you need on how to play when you are behind in lane. - Lastly, you will learn the practical steps that you can take to cultivate an unstoppable winner's attitude that will also help you have more fun with the game. - There also are a lot of general game knowledge golden nuggets thrown all throughout the book to help you in your journey further. I know this is a big list of things and to some of you it might seem intimidating, but I promise you that once you learn and apply the information in this book in your own gameplay, you will transform completely as a player. Are you excited? Best of luck on the Summoner's Rift!
