### **A Parents' Guide to the Emotional Needs of Children**

David Goodman 1969

Motivate Your Child Scott Turansky 2015-02-03 We need a  
parenting revolution! Most parenting approaches end up  
encouraging children to ask the wrong questions about  
life: What's in it for me? Are you going to pay me for  
that? What's the minimum I need to do to get by? But  
God's Word gives us a better way to parent, one that  
builds strong internal motivation in children. When  
parents change the way they parent, kids change the way  
they live. This practical book explores a theology of  
internal motivation and then gives parents real-life  
solutions to equip their kids for life. You'll learn . .  
. . • how to parent in ways that build internal motivation  
so that kids don't have to rely on you to get things  
done. • the four promptings of the conscience and how to

coordinate your parenting to take advantage of them. •  
ways to energize your spiritual training with fun and  
creativity. • how to help children respond to mistakes  
instead of blaming, defending, or justifying. The  
greatest gift you can give your child is strong moral  
and spiritual development—this book shows you how. Every  
chapter includes practical examples of families applying  
the Bible to their current issues. Join the revolution!

**A Parent's Guide to Teaching Children Mitzvot** Shmuel Singer 1991 As a result, parents often cannot obtain adequate information from a single unified source. Rabbi singer has provided a concise, well-organized overview that includes children with special needs.

**A Parent's Guide to Raising Grieving Children** Phyllis R. Silverman 2009 When children lose someone they love, life is never the same. In this sympathetic book, the authors advocate an open, honest approach, suggesting that our instinctive desire to "protect" children from the reality of death may be more harmful than helpful.

**Parenting Matters** National Academies of Sciences, Engineering, and Medicine 2016-12-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of

parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Coupling his spiritual wisdom with insights from some of the greatest modern thinkers, The Golden Cord invites thoughtful parents and teachers to delve deeper into the treasury of their ancient Christian heritage. Faith, tradition, and contemporary thought do not always have to be at odds. The author explores how current and ancient sources can agree on the subject of how the Christian family can grow together in virtue and stand firm against the powerful antichristian forces that move through secular society. This exploration focuses on three key elements of St. John's pedagogy for the family: spiritual exercise, imitation, and story-telling.

The Parent's Guide to Birdnesting Ann Gold Buscho 2020-09-01 Take coparenting to the next level and provide a stable environment for your children as you and your spouse begin tackling your separation or divorce. For parents who are separating and want to put their children first, birdnesting could be the interim custody solution you've been looking for. Instead of the children splitting their time being shuttled between mom and dad's separate homes, birdnesting allows the children to stay in the "nest" and instead, requires mom and dad to swap, allowing each parent to stay elsewhere when not with the children. Initially popularized by celebrities, this method of coparenting is now becoming more mainstream as a way to help ease children into a new family dynamic. Birdnesting takes work and commitment but with Dr. Ann Gold Buscho's guidance, you'll learn everything you need to know about this revolutionary method. In The Parent's Guide to Birdnesting, you will discover the pros and cons, the

financial and interpersonal considerations, and if it's the right decision for you and your family.

**Journey's End** R. C. Sherriff 2018-01-04 The front lines of World War I may be in the battle-scarred fields of France, but inside this dugout the essence of England is intimately mixed with the hard-packed dirt of the walls and floor. Captain Stanhope will stand no shirking from the men in his command-- or from himself. After three years in and around the trenches, he is utterly exhausted and absolutely terrified. When Raleigh, a junior schoolmate from home, gets posted to Stanhope's company, the poor man is badly shaken. Hero worship is for sunny afternoons on the cricket pitch and leisurely discussions of Keats-- not for the horrors of war. Stanhope wants to believe Raleigh is just another soldier in the crowd. He tries to lose sight of him among Osborne, the former schoolmaster, Trotter, the proud gardener showing off photos of his prize hollyhocks, and the good-humored Hardy. Yet, when the long-anticipated enemy attack explodes around them, Stanhope and Raleigh must come to terms with the age-old tragedy of battle.

Anorexia usually occurs in young women, starting in their teens, and it is estimated that about 2 per cent of all young women suffer from it. Bulimia is an eating disorder which is also on the rise among young people. They use the binge/purge cycle to extreme in their attempts to control their weight. This is a comprehensive, positive and practical guide to detecting the early signs of eating disorders and then curing them. Written with years of experience and expertise, it encourages parents to understand the illness, overcome their fears and take control of the situation, whether that means enforcing a strict meal plan or taking the decision to seek professional help. The book includes early signs to look out for; the possible effects of the illness, both physical and psychological; the treatments available and, most importantly, the plan, which helps parents to take positive action and really make a difference to their child's life.
