A Past Without Shadow Zohar Shavit 2005-02-22 A Past Without Shadow examines 50 years of German children's books in which the darkest horrors of the Third Reich have routinely remained hidden. The horrors of the Third Reich are systematically screened and filtered, allowing the darker, bleaker parts of history to escape illumination. Here Zohar Shavit explores 345 German books for children describing the Third Reich and the Holocaust, and finds a shocking distortion of the past: a recurrent narrative which suggests that the Germans themselves had no hand in the suffering inflicted on the Jews. These books, Shavit argues, have created the false historical lesson that the real victims of Hitler's crimes were the German people themselves. First published to great acclaim in Hebrew and now available in English, this book is a wake-up call for anyone concerned about German children's literature and its responsibility to past and future.

No Hurdle Too High Mona Pastroff Goldstein 2005-10-01 America's most successful Grand Prix rider, Margie Goldstein Engle is the star attraction at any horse show in which she competes, as well as a role model for a generation of young equestrians. Despite her parents' objections, young Margie worked odd jobs at stables in exchange for riding lessons, then proved her ability in the show ring on ponies and, later, on horses. Her first Grand Prix victory came in 1986 on Daydream, and was followed by such notable blue-ribbon successes as the prestigious American Invitational, the Budweiser AGA Show Jumping Championship, and representing the United States in Nations Cups. She is the American Grandprix Association's only eight-time Rider of the Year, and the first rider ever to place first, second, third, fourth, and fifth in a single Grand Prix class. The route to the top was not an easy one. Margie had to overcome financial challenges and a series of bone-breaking injuries that threatened to end her career. But thanks to her courage and tenacity, and the love and support of her family--especially husband, Steve--and her sponsors and fans, she rebounded to increased prominence at the international level. In addition to telling this extraordinary and inspiring story, the book offers many of the horsemanship tips and techniques that have given Margie and her students the winner's edge. Written by someone who has known Margie best--her mother--No Hurdle Too High will appeal to everyone, rider or not, who thrills to challenges and triumphs at the highest level.

Smart Is Not Enough! Alan C. Guarino 2007-06-30 The Information Age is OVER -- In business today, it is all about TALENT! "Smart Is Not Enough" explains the core issue of 21st century business. Forget technology - Forget outsourcing TALENT is the #1 challenge in your organization. Whether you're a CEO or an entry level college grad; whether you manage a staff or not, this book is for you. It can help in career planning, in developing your management strategy, or just help

you understand the playing field in business today. Author Alan Guarino explains the full gamut of cutting-edge talent management, from how to find it, develop it, deploy it and lead it, to his South Pole Theory of "hidden talent" talent as a solution for the shortage of critical talent in the business world of the 21st Century. The South Pole Theory explains that traditionally, corporations biased their talent searches towards those who performed at the top of their academic classes. Yet, some of the most successful executives and business leaders weren't good students themselves. Grades aren't the only predictor of success in the real business world. This book shares techniques for finding those determined, dedicated go-getters who fall through the cracks when we judge them solely on academics. To compete in business today, top companies need to cultivate every available source of talent. This book shows business leaders how to find and capitalize on this special pool of talent-- the future versions of people like Paul Orfalea, founder of Kinkos, Wayne Huizenga of Blockbuster Video, and many others. Alan Guarino (Marlboro, NY) is CEO and co-founder of the executive search firm Cornell International. His firm is now owned by Adecco, the largest recruiting company in the world.
