make his “Berlin Trilogy”—the albums *Low*, *Heroes*, and *Lodger*, which are now considered some of the most critically acclaimed and innovative of the late twentieth century. But Bowie’s time in Berlin was about more than producing new music. As Tobias Rütger describes in this fascinating tale of Bowie’s Berlin years, the musician traveled to West Berlin—the capital of his childhood dreams and the city of Expressionism—to repair his body and mind from the devastation of drug addiction, delusions, and mania. Painting a vivid picture of Bowie’s life in the Schöneberg area of the city, Rütger describes the artist’s friendships and collaborations with his roommate, Iggy Pop, as well as Brian Eno and Tony Visconti. Rütger illustrates Bowie’s return to painting, days cycling to the Die Brücke museum, and his exploration of the city’s nightlife, both the wild side and the gay scene. In West Berlin, Bowie also

met singer and actress Romy Haag; came to know Hansa Studios, where he would record *Low* and *Heroes*; and even landed the part of a Prussian aristocrat in *Just a Gigolo*, starring alongside Marlene Dietrich. Eventually Rütger uses Bowie and his explorations of the cultural and historical undercurrents of West Berlin to examine the city itself: divided, caught in the Cold War, and how it began to redefine itself as a cultural metropolis, turning to the arts to start a new history. Tying in with an exhibition at the Museum of Contemporary Art, Chicago, in September, 2014, *Heroes* tells the fascinating story of how the music of the future arose from the spirit of the past. It is an unforgettable look at one of the world’s most renowned musicians in one of its most inspiring cities.

Insights from Book Translations on the International Diffusion of Knowledge 2011 Increases in the stock of ideas possessed by societies are central to modern economic growth. The implications of idea flows are striking: Klenow and Rodriguez-Clare (2005) estimate world production would be just 6% of its current level if countries did not share ideas. Yet, although theoretical economists have studied ideas and their diffusion extensively, empirical studies are scarce because ideas are inherently difficult to measure. Previous empirical studies of idea flows have tended to use proxies such as trade flows, foreign direct

investment, migration, and patent citations. However, with the exception of the latter, these measures are not pure idea flows, and do not capture the key properties of ideas, namely non-rivalry and disembodiedness. My research proposes a novel measure of idea flows, namely book translations, and uses it to study the factors that affect the international diffusion of ideas. Book translations are an attractive way to quantify idea flows because they are both non-rival and disembodied; they are a pure measure of idea flows rather than a by-product of a process such as trade or migration, and their key purpose is to make the ideas contained in the book accessible to speakers of another language. In chapter 2, I outline the economics literature on ideas and their diffusion. I motivate and discuss book translations as a measure of idea flows, and provide a framework for thinking about when

translations are likely to occur. I describe the translation data in chapter 3. The source of the data is an international bibliography of translations collected by the United Nations Educational, Scientific, and Cultural Organization. From this bibliography, I compile a data set of over 2 million translations published in 80 countries since the 1949, including detailed information on each title translated. I then document the main patterns of translation flows. In chapter 4, I employ a gravity framework to study how distance affects translation flows between countries. This sheds light both on the barriers to international idea diffusion and on the underlying causes of the negative relationship between distance and trade. Translations differ from trade in that they have zero transportation costs, but they are subject to similar search and information costs and costs of forming contracts. I

estimate a gravity model where bilateral translation flows vary with the sizes of the countries and the distance between them, and find the elasticity of translations with respect to distance to be between -0.3 and -0.5 for the 1990s; these values are significantly smaller than the equivalent elasticity for trade found in the literature, suggesting a significant role for transportation costs in the distance effect on trade. In addition, I present several pieces of evidence that suggest supply-side frictions play a larger role in the distance effect on translations than do consumer preferences. For instance, the speed with which titles are translated, which is likely to largely capture supply frictions as opposed to demand factors, decreases significantly with distance. Finally, in joint work with Ran Abramitzky (chapter 5), I study how the collapse of the Communist regime in Eastern Europe at the close

of the 1980s affected the international diffusion of ideas. We show that while translations between Communist languages decreased by two thirds with the collapse, Western-to-Communist translations increased by a factor of seven and reached Western levels. Convergence was full in economically-beneficial fields such as sciences and only partial in culturally-beneficial fields such as history. The effects were larger for more Western-oriented countries. These findings help us understand how institutions shape the international diffusion of knowledge and demonstrate the importance of preferences in determining the type of ideas that diffuse into a country.

House of Psychotic Women Kier-La Janisse 2015-01-09 Cinema is full of neurotic personalities, but few

things are more transfixing than a woman losing her mind onscreen. Horror as a genre provides the most welcoming platform for these histrionics: crippling paranoia, desperate loneliness, masochistic death-wishes, dangerous obsessiveness, apocalyptic hysteria. Unlike her male counterpart - 'the eccentric' - the female neurotic lives a shamed existence, making these films those rare places where her destructive emotions get to play. HOUSE OF PSYCHOTIC WOMEN is an examination of these characters through a daringly personal autobiographical lens. Anecdotes and memories interweave with film history, criticism, trivia and confrontational imagery to create a reflective personal history and a celebration of female madness, both onscreen and off. This critically-acclaimed publication is packed with rare images that combine with family photos and artifacts to form a

University College London. A remarkably thorough analysis of prostitution in contemporary society. Situating sex work at the intersection of economy, occupation, and emotion, the authors illuminate the complex forces that shape prostitution within an emerging global order. Bringing their analysis full circle, they close with a helpful exploration of the methods by which researchers are able to investigate an area of such danger and controversy. All in all, a courageous and important book. Jeff Ferrell, Visiting Professor of Criminology, University of Kent, UK, and Professor of Sociology, Texas Christian University, USA. This excellent text fills a gap in the market as it explores the full range of issues covering sex work, policy and politics....A fascinating and informative text which will become the leading handbook in this area. Dr Louise Westmarland, Senior Lecturer

in Criminology, The Open University
Many commentators have attempted to analyze and explain the nature of prostitution. However, this is the first textbook to offer a complete overview of the way it operates within contemporary society, its characteristics, organizational structures and cultural contexts. The book also explores how criminal, social and health policies have sought to regulate and control the selling of sex. This introduction to the sociology and criminology of sex work is: " comprehensive - covering all key areas common to the study of the female sex industry and also includes male and transgender sex work, and the sexual exploitation of young people " interdisciplinary - combining sociological approaches with criminology, criminal justice studies, social policy, health research and sexuality studies " comparative - including the international context of the sex

industry, drawing on European and other examples of law, regulation and systems that govern the sex industry " student-focused - offering a lively writing style, case studies, summaries of relevant legislation, study questions and guidance on further reading " accessible - assisting student learning and aiding lecturers in their teaching. Written by leading experts with over 20 years' experience in researching and teaching in the field, this is a must for all criminology, criminal justice and sociology students taking modules in sex industry and prostitution studies. It will also appeal to those in gender studies and social policy. *Criminal Investigation of Drug Offenses* John Marshall Macdonald 1983 *Drug Dealers and Drug Abusers; Drugs, Homicide, and Other Crimes; The Narcotics Detective and His Investigations; Undercover Operations; Informants; Surveillance and Drug Raids; Drug Smuggling;*

Seeing Through Multilingual Corpora
Stig Johansson 2007-01-01 Through electronic corpora we can observe patterns which we were unaware of before or only vaguely glimpsed. The availability of multilingual corpora has led to a renewal of contrastive studies. We gain new insight into similarities and differences between languages, at the same time as the characteristics of each language are brought into relief. The present book focuses on the work in building and using the English-Norwegian Parallel Corpus and the Oslo Multilingual Corpus. Case studies are reported on lexis, grammar, and discourse. A concluding chapter sums up problems and prospects of corpus-based

contrastive studies, including applications in lexicography, translator training, and foreign-language teaching. Though the main focus is on English and Norwegian, the approach should be of interest more generally for corpus-based contrastive research and for language studies in general. Seeing through corpora we can see through language.

Knowledge of Evil Alyson Brown

2013-01-11 This book aims to document and analyse the enduring involvement of children in the commercial sex trade in twentieth-century England. It uncovers new evidence to indicate the extent of under-age prostitution over this period, a much-neglected subject despite the increased visibility of children more generally. The authors argue that child prostitution needs to be understood within a broader context of child abuse, and that this provides one of the clearest manifestations of the way in which 'deviant groups' can be conceived of.

as both victims and threats. The picture of child prostitution which emerges is one of exclusion from mainstream society and the law, and remoteness from the agencies set up to help young people in trouble, which were often reluctant to accept the realities of child prostitution. The evidence provided in this book indicates that the circumstances which have led young people into prostitution over the last hundred years amount, at worst, to physical or psychological abuse or neglect, and at best as the result of limited choice.

2017-04-18 In the spirit of Khaled Hosseini, Nadia Hashimi and Shilpi Somaya Gowda comes this powerful debut from a talented new voice—a sweeping, emotional journey of two childhood friends in Mumbai, India, whose lives converge only to change forever one fateful night. India, 1986: Mukta, a ten-year-old village

girl from the lower caste Yellama cult has come of age and must fulfill her destiny of becoming a temple prostitute, as her mother and grandmother did before her. In an attempt to escape her fate, Mukta is sent to be a house girl for an upper-middle class family in Mumbai. There she discovers a friend in the daughter of the family, high spirited eight-year-old Tara, who helps her recover from the wounds of her past. Tara introduces Mukta to an entirely different world—one of ice cream, reading, and a friendship that soon becomes a sisterhood. But one night in 1993, Mukta is kidnapped from Tara's family home and disappears. Shortly thereafter, Tara and her father move to America. A new life in Los Angeles awaits them but Tara never recovers from the loss of her best friend, or stops wondering if she was somehow responsible for Mukta's abduction. Eleven years later, Tara, now an adult, returns to

Berlin Coquette Jill Suzanne Smith
2014-05-15 During the late nineteenth century the city of Berlin developed such a reputation for lawlessness and sexual licentiousness that it came to be known as the "Whore of Babylon." Out of this reputation for debauchery

grew an unusually rich discourse around prostitution. In *Berlin Coquette*, Jill Suzanne Smith shows how this discourse transcended the usual clichés about prostitutes and actually explored complex visions of alternative moralities or sexual countercultures including the "New Morality" articulated by feminist radicals, lesbian love, and the "New Woman." Combining extensive archival research with close readings of a broad spectrum of texts and images from the late Wilhelmine and Weimar periods, Smith recovers a surprising array of productive discussions about extramarital sexuality, women's financial autonomy, and respectability. She highlights in particular the figure of the *cocotte* (*Kokotte*), a specific type of prostitute who capitalized on the illusion of respectable or upstanding womanhood and therefore confounded easy categorization. By exploring the semantic connections between the

figure of the cocotte and the act of flirtation (of being coquette), Smith's work presents flirtation as a type of social interaction through which both prostitutes and non-prostitutes in Imperial and Weimar Berlin could express extramarital sexual desire and agency.

Of Human Bondage W. Somerset Maugham
2010-02-23 A masterpiece of modern literature that mirrors Maugham's own career. *Of Human Bondage* is the first and most autobiographical of Maugham's novels. It is the story of Philip Carey, an orphan eager for life, love and adventure. After a few months studying in Heidelberg, and a brief spell in Paris as a would-be artist, Philip settles in London to train as a doctor. And that is where he meets Mildred, the loud but irresistible waitress with whom he plunges into a formative, tortured and masochistic affair which very nearly ruins him.
