One World, Many Voices David Sewart 1995

International Perspectives on Drama and Citizenship Education Nicholas McGuinn 2021-11-05 This book brings together respected international academics and practitioners from citizenship and drama to debate, share their experiences and plan a way forward for academic and professional best practice in drama and citizenship education for a democratic society. Drawing on international contributions, the chapters explore fundamental ideas about theatre and drama from a global perspective with connections made to action and identity. The main section of the book showcases authors from around the world discussing their perspectives of what is happening within particular countries and exploring a range of ideas and issues that relate to vitally important matters including community, socialism, post-colonialism, diversity, inclusion and more. The final section of the book brings together teams of authors from citizenship and drama education, who discuss the essential elements of citizenship education and encourage insight and practical collaboration from drama experts. The book is unique in presenting dynamic interaction between citizenship and drama experts and encouraging academics and professional to develop their own work in these areas. It will be of great interest to academics, researchers and students in the fields of citizenship education, drama education and all those interested in promoting social justice through education.

The Report: South Africa 2014 Oxford Business Group 2014-12-08 Indeed, since the end of apartheid in 1994 South Africa has become a major diplomatic player both on the African continent as well as further

afield. Despite the size of South Africa's economy, the country currently faces a number of major economic challenges. As of the end of July 2014 the unemployment rate was at 25.5%, according to data from Statistics South Africa, which was among the highest in the world. While the government's long-term development plans are generally highly regarded, delivery and execution has occasionally been problematic. While there are major hurdles that must be cleared, given the country's strong institutions and the rapid pace of economic expansion over the past two decades, South Africa should be able to look forward to 20 more years of peace and steady, sustained economic growth.

ETDP SETA Scarce & Critical Skills Guide 2010/11

Leadership and Legitimacy Susan Brown 2007 One of the essential functions of national leadership is to continuously construct a national sense of identity and mutual trust, and another is to ensure the effectiveness of institutions, both of delivery and democracy. In both these ways, this has been a hard year.

Bulletin of the International Bureau of Education 1961

Urban Inclusivity in Southern Africa Hangwelani H. Magidimisha-Chipungu 2021-10-30 This book's point of departure rests on the premises that dimensions of the mainstream inclusive city discourse fail to capture in detail vulnerable clusters of society (being women, children, and the aging), the minority clusters (i.e., the blind, the disabled), and migrants. In addition, it fails to recognize the increase of spatial inequality driven by racial and class differences—a factor that has seen an increase in community violence and protests. The focus on spatial inequality has, for a long time, blind-folded urban authorities to ignore exclusion arising out of the same environments created with a notion of creating inclusivity. Hence this book “collapses spatial walls” as it seeks to uncover the true perspectives of inclusivity in cities beyond spatial dimensions but within social realms. The depth of this book's enquiry rests on its critical investigation of Southern African cities' through historical epochs of apartheid and colonialism in the region.

The Race Game Douglas Booth 2012-12-06 1999 North American Society for Sports History Book of the Year Douglas Booth looks at the role of sport in the fostering of a new national identity in South Africa. He analyzes the effect of the 30-year sport boycott but concludes that sport will never unite South Africans except in the most fleeting and superficial manner.

A History of Education for European Girls in Natal Sylvia Vietzen 1973

International Perspectives on Education, Religion and Law Charles J Russo 2014-06-05 This volume examines the legal status of religion in education, both public and non-public, in the United States and seven other nations. It will stimulate further interest, research, and debate on comparative analyses on the role of religion in schools at a time when the place of religion is of vital interest in most parts of the world. This interdisciplinary volume includes chapters by leading academicians and is designed to serve as a resource for researchers and educational practitioners, providing readers with an enhanced awareness of strategies for addressing the role of religion in rapidly diversifying educational settings. There is currently a paucity of books devoted solely to the topic written for interdisciplinary and international audiences involving educators and lawyers, and this book will clarify the legal complexities and technical language

among the law, education, and religion.

Investigating the Roles of School Management Teams in Curriculum Delivery Mawela, Ailwei Solomon 2021-06-25 The COVID-19 pandemic has introduced a new paradigm in education that has forced school management teams to re-imagine their curricula delivery functions and obligations during and post COVID-19. Now there are concerns about the state to which curriculum delivery in schools is likely to become planned, implemented, and managed. Investigating the Roles of School Management Teams in Curriculum Delivery improves the quality of planning, implementation, and management of curriculum delivery to advance the quality of teaching and learning in schools. Particularly, it envisages innovative strategies, best practices, and addresses problems in the planning, implementation, and delivery of curricula by school management teams. Covering topics such as curriculum delivery theory, curriculum delivery in planning, implementation, and management during and post COVID-19; curriculum delivery in assessment and alternative assessment; and reimagining inclusivity in curriculum delivery, this edited book is essential for departmental heads, deputy principals, education district officials, department of basic education curriculum designers, instructional designers, administrators, academicians, university teachers, researchers, and post-graduate students.

Politics and Governance of Basic Education Brian Levy 2018-09-21 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world, economic inclusion has risen to the top of the development discourse. A well-performing education system is central to achieving inclusive development - but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased, but quality remains low, with weaknesses in governance comprising an important part of the explanation. The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making process, combining practical steps to achieve incremental gains to re-orient the system towards learning.

Occupational Therapy and Physical Dysfunction E-Book Michael Curtin 2009-10-20 The sixth edition of this classic book remains a key text for occupational therapists, supporting their practice in working with people with physical impairments, stimulating reflection on the knowledge, skills and attitudes which inform practice, and encouraging the development of occupation-focused practice. Within this book, the editors have addressed the call by leaders within the profession to ensure that an occupational perspective shapes the skills and strategies used within occupational therapy practice. Rather than focusing on discrete diagnostic categories the book presents a range of strategies that, with the use of professional reasoning, can be transferred across practice settings. The new editors have radically updated the book, in response to the numerous internal and external influences on the profession, illustrating how an occupational perspective underpins occupational therapy practice. A global outlook is intrinsic to this edition of the book, as demonstrated by the large number of contributors recruited from across the world. Covers everything the student needs within the physical disorders part of their course Links theory of principles to practice and management Written and edited by a team of internationally experienced OT teachers, clinicians and managers Gives key references and further reading lists for more detailed study Written within a framework of lifespan development in line with current teaching and practice Includes practice scenarios and case studies Focuses on strategies Subtitle reflecting the primacy of occupation in occupational therapy practice Inclusion of practice scenarios to illustrate the application of theory to practice Features such as chapter summaries and key points, providing a quick overview of each chapter A focus on

strategies rather than diagnostic categories Consideration of individuals, groups and communities An international perspective Language that is person-centred and inclusive New editorial team endorsed by the former editors including Annie Turner

Handbook of Research on Creating Spaces for African Epistemologies in the Inclusive Education Discourse Maguvhe, Mbulaheni Obert 2021-12-31 Students with disabilities who are not able to perform to the best of their abilities often find themselves learning in inaccessible environments and subjected to increased stress levels due to the haphazard provisioning of education characterized by physical, communicative, and unsuitable teaching and learning approaches. Very often this is a result of various shortcomings including unfair assessment practices. Misconceptions and a lack of knowledge with regard to the implementation of inclusive education detract from the successful admission of students with disabilities and their retention and active participation. The Handbook of Research on Creating Spaces for African Epistemologies in the Inclusive Education Discourse explores the concept of inclusive education in an African context. It advocates for the monitoring and evaluation of inclusive education and proposes interventions where reasonable accommodation or lack of accessibility is a reason for students with disabilities to not benefit from this system. Covering topics such as barriers to learning, rural schools, and student support, this major reference work is an essential resource for administrators, advocates for students with disabilities, policymakers, researchers, pre-service teachers, educators, academicians, and students.

Sexual Orientation, Gender Identity, and Schooling Stephen Thomas Russell 2017 Sexual Orientation, Gender Identity, and Schooling brings together contributions from a diverse group of researchers, policy analysts, and education advocates from around the world to synthesize the practice and policy implications of research on sexual orientation, gender identity, and schooling.

Primary Education in Crisis Brahm Fleisch 2008 In the past decade, the national preoccupation has been on the crisis in secondary schools. Lurking behind the intractable problem of low pass rates, the dysfunctional schools and the small number of higher grade mathematics and science graduates is the calamity in primary education. Drawing on the work of researchers in a range of fields including psychology, sociology, anthropology, linguistics, economics, the health sciences, and mathematics education, this book documents the depth and scope of the primary education crisis and provides a comprehensive and rigorous explanation of its causes. Primary education in crisis pulls together the wealth of research on health, poverty, resources, language and teaching as factors in academic achievement in reading, writing and mathematics. At the centre of the book is an analysis of the published studies that systematically document what teachers teach and fail to teach, and why it is that teaching is at the heart of the crisis in primary education. The author suggests that there are no quick fixes, but only hard choices and that, for reform to succeed, it must be evidence-based.

The South African Journal of Communication Disorders 2002

Official Year Book of the Union South Africa. Office of Census and Statistics 1946

Curriculum Theory, Curriculum Theorising, and the Theoriser 2020-12-29 This book explores the complexities of curriculum studies by taking into account African perspectives of curriculum theory, curriculum theorising and the theoriser. It provides alternative pathways to the curriculum discourse in Africa by breaking traditions and experimenting on alternative approaches.

African Perspectives on Reshaping Rural Development Mafukata, Mavhungu Abel 2019-11-22 Development studies in developing regions such as Southern Africa rely heavily on materials developed by Europeans with a European context. European dominance in development studies emanates from the fact that the discipline was first developed by Europeans. Some argue that this has led to distortions in theory and practice of development in Southern Africa. This book wishes to begin Africa's expedition to develop proper material to de-Westernize while Africanizing the context of the scholarship of rural development. African Perspectives on Reshaping Rural Development is an essential reference source that repositions the context of rural development studies from the Western-centric knowledge system into an African context in order to solve African-centered problems. Featuring research on topics such as food security, poverty reduction, and community engagement, this book is ideally designed for planners, researchers, practitioners, policymakers, government officials, academicians, and students seeking clarity on theory and

practice of development in Africa.

Critical Issues in South African Education After 1994 Thobeka Vuyelwa Mda 2000 This title seeks to provide a reflection on the transformation of South Africa's education system. It traces the rationale behind various acts and policies, takes a critical look at the realities of implementation and offers projections regarding possible future directions.

Cultivating a Culture of Nonviolence in Early Childhood Development Centers and Schools

Taukeni, Simon George 2019-02-15 With the recent uptick of violence in schools, it is essential to strategize new concepts for promoting nonviolent tendencies in children and creating safe environments. Through nonviolent teaching techniques, it is possible to effectively demonstrate mutual respect, tolerance, and compassion in order to have a lasting peace. *Cultivating a Culture of Nonviolence in Early Childhood Development Centers and Schools* aims to expand and deepen multicultural nonviolent teaching techniques and concepts to achieve desired outcomes for early childhood development centers, schools, institutions of higher learning, and centers of teacher development and training. While highlighting topics including child development, conflict resolution, and classroom leadership, this book is ideally designed for teachers, directors, principals, teacher organizations, school counselors, psychologists, social workers, government officials, policymakers, researchers, and students.

Gender-Based Violence Yanyi K. Djamba 2015-06-10 This book offers new perspectives on gender-based violence in three regions where the subject has been taboo in everyday discourse often due to patriarchal cultural norms that limit women's autonomy. The contributions to this book provide rare insight into not only the levels and the socio-demographic determinants of domestic violence, but topics ranging from men's attitudes toward wife beating; domestic violence-related adolescent deaths, and women's health problems due to sexual and physical abuse. With a comprehensive introduction that provides a comparative

international research framework for discussing gender-based violence in these three unique regions, this volume provides a key basis for understanding gender-based violence on a more global level. Part I, on Africa, covers men's attitudes towards domestic violence, the impact of poverty and fertility, the association between adolescent deaths and domestic violence, and the link between domestic abuse and HIV. Part II, on the Middle East, covers the importance of consanguinity on domestic violence in Egypt and Jordan, the effects of physical abuse on reproductive health, and the link between political unrests and women's experience and attitudes towards domestic violence. Part III, on India, shows how sexual abuse puts women at risk of reproductive tract infections and sexually transmitted infections, as well as the role of gender norms in wife abuse and the role of youth aggressive behavior in nonconsensual sex. With such a deep and broad coverage of factors of intimate partner abuse, this book serves as a reference document for researchers, decision-makers, and organizations that are searching for ways to reduce gender-based domestic violence. This book is of interest for researchers in Criminology and Criminal Justice, as well as Sociology, Social Work, Public Health and Human Rights.

Conflict and Governance Susan Brown 2005

Where to for Provincial Education? Russell Wildeman 2010 South Africa's provincial education departments have been reduced to provincial administrations, for reasons that include the powerful role national government plays in delivering education services. This book looks in detail at education spending and asks: Can we afford to maintain administrations that cannot possibly change the course of poor quality education and engineer a brighter future for our poor and deprived learners? The authors believe this question and the future role of provincial education departments need to be discussed, openly and publicly, without delay.

International Who's Who of Professional Management Joseph A. Parker 1999-11
