Springhill Mina Lenox-Conyngham 2005 Long-awaited, this reprint of the history of one of Ulster's most enchanting houses, Springhill near Money more, County Londonderry, will be an invaluable companion to those interested in the history of Mid-Ulster, the Plantation and Ulster families with Scottish origins. Now owned and managed by the National Trust, the house and grounds retain a unique and delightful atmosphere. It was home to ten generations of the Conyngham (later the Lenox-Conyngham) family, and their story is richly documented from the family's own papers and told in a colourful narrative by the last chatelaine of the house, Mina. She was a formidable character in her own right and her tale gives a period insight into the self-confidence of the rural gentry class and their loyalties in early 20th-century Ulster. This new volume published by the Ulster Historical Foundation provides not only the original text but many new and excellent illustrations as well as a corrected family tree. These additions give a marvellously enhanced picture of this family home with its intact collections and wonderful setting close to the shores of Lough Neagh.

Water, Birth and Sexuality Michel Odent 2020-12-17 'After the historic student revolt in France a period of audacious creativity resulted. The watchword was: "It is forbidden to forbid". We took advantage of this transient cultural folly to do what would have been impossible ten years before or ten years after, introducing in the maternity unit of a state hospital an inflatable outdoor pool as a way to replace drugs during birth.' – from the Introduction In this groundbreaking book, Dr Odent takes as his starting point the world-famous work on childbirth at Pithiviers, where he first noticed the strong attraction to water that many women have during labour. As well as discovering the practical advantages of water during the birthing process, he began to consider the meaning and importance of water as a symbol. *Water, Birth and Sexuality* examines the living power of water and its erotic connotations. Odent evaluates what water meant in different cultures throughout history, through myths and legends, and what it means for us today: from an advertiser's tool to a metaphor for aspects of the psyche. He also studies humanity's special relationship to dolphins, and the related 'aquatic ape' theory. A practical section on the use of water during birth and in various therapies, particularly sex therapy, is included. This edition of this classic work features a new Introduction.

Fifth Honeymoon Torbjorn Rodland 2018-10-02 This publication accompanies Torbjørn Rødland's exhibition "Fifth Honeymoon," produced as a collaboration between Bergen Kunsthall; Bonniers Konsthall, Stockholm; and Helsinki's Museum of Contemporary Art, Kiasma; and featuring thirty new photographs and a new video work, his first in eleven years. Photographed exclusively on analog material, often in staged

studio settings, Rødland's works hold a unique place in the treatment of images by artists today. His photographs have an almost uncomfortable ambiguity, fully aware as they are of the power of images and the slippery comfort of normative formats, while simultaneously showing a sincere desire for the emotions and the magic that are at play in the world. His photographs manifest what we experience as beautiful, and sometimes repulsive, but not in any conventional way. Rødland makes use of these aesthetic categories and the forms in which they are expressed, and confronts them, complicates them, and exaggerates them with contradictory concepts, such as the uncanny, the nasty, the messy. *Fifth Honeymoon* features all of the new works in Torbjørn Rødland's eponymous exhibition, as well as newly commissioned essays by the American writer and cultural theorist Sianne Ngai and artist colleague Matias Faldbakken. Copublished with Bergen Kunsthall; Bonniers Konsthall, Stockholm; and Kiasma Museum of Contemporary Art, Helsinki Contributors Matias Faldbakken, Sianne Ngai

The Play of Space Rush Rehm 2020-07-21 Is "space" a thing, a container, an abstraction, a metaphor, or a social construct? This much is certain: space is part and parcel of the theater, of what it is and how it works. In *The Play of Space*, noted classicist-director Rush Rehm offers a strikingly original approach to the spatial parameters of Greek tragedy as performed in the open-air theater of Dionysus. Emphasizing the interplay between natural place and fictional setting, between the world visible to the audience and that evoked by individual tragedies, Rehm argues for an ecology of the ancient theater, one that "nests" fifth-century theatrical space within other significant social, political, and religious spaces of Athens. Drawing on the work of James J. Gibson, Kurt Lewin, and Michel Foucault, Rehm crosses a range of disciplines--classics, theater studies, cognitive psychology, archaeology and architectural history, cultural studies, and performance theory--to analyze the phenomenology of space and its transformations in the plays of Aeschylus, Sophocles, and Euripides. His discussion of Athenian theatrical and spatial practice challenges the contemporary view that space represents a "text" to be read, or constitutes a site of structural dualities (e.g., outside-inside, public-private, nature-culture). Chapters on specific tragedies explore the spatial dynamics of homecoming ("space for returns"); the opposed constraints of exile ("eremitic space" devoid of normal community); the power of bodies in extremis to transform their theatrical environment ("space and the body"); the portrayal of characters on the margin ("space and the other"); and the tragic interactions of space and temporality ("space, time, and memory"). An appendix surveys pre-Socratic thought on space and motion, related ideas of Plato and Aristotle, and, as pertinent, later views on space developed by Newton, Leibniz, Descartes, Kant, and Einstein. Eloquent written and with Greek texts deftly translated, this book yields rich new insights into our oldest surviving

drama.

Aeschylean Tragedy Alan H. Sommerstein 2013-10-16 Aeschylus was the dramatist who made Athenian tragedy one of the world's great art-forms. In this completely revised and updated edition of his book Alan H. Sommerstein, analysing the seven extant plays of the Aeschylean corpus (one of them probably in fact the work of another author) and utilising the knowledge we have of the seventy or more whose scripts have not survived, explores Aeschylus' poetic, dramatic, theatrical and musical techniques, his social, political and religious ideas, and the significance of his drama for our own day. Special attention is paid to the "Oresteia" trilogy, and the other surviving plays are viewed against the background of the four-play productions of which they formed part. There are chapters on Aeschylus' theatre, on his satyr-dramas, and on his dramatisations of Homer's "Iliad" and "Odyssey", and a detailed chapter-by-chapter guide to further reading. No knowledge of Greek is assumed, and all texts are quoted in translation.

Six Questions of Socrates: A Modern-Day Journey of Discovery through World

Philosophy Christopher Phillips 2011-01-17 How people around the world grapple with the great questions posed by Socrates. What is virtue? What is moderation? What is justice? What is courage? What is good? What is piety? Socrates thought that understanding the perspectives of others on these six great questions would help him become a more excellent human being. Following in Socrates's footsteps, Christopher Phillips—"Johnny Appleseed with a master's degree" (Utne Reader)—investigates these same questions, beginning in the marketplace of modern-day Athens. He goes on to investigate the timely responses and outlooks of people from different cultures and backgrounds around the world: from Greece and Spain to Japan and Korea, Mexico City, and Chiapas, where the region's indigenous people struggle for fundamental human rights. Phillips also traveled throughout the

United States, holding dialogues in diverse communities from New York City to the Navajo Nation. Introducing us to less familiar thinkers in non-Western traditions who were kindred spirits of Socrates, Phillips enlarges our perspectives on life's fundamental questions, creating an innovative world survey of philosophy.

Spiritual Warfare Karl I. Payne 2021-03 The Bible is clear that we face three different types of opposition while attempting to successfully navigate life as Ambassadors for Christ. Our opposition is identified in Scripture as "the world" (1 John 2:15-17), "the flesh" (Romans 7:15-25), and "the devil" (1 Peter 5:8-9). The sad reality is that too many Christians lose more battles than they win and endure their walk with God rather than enjoy it because they often don't recognize how opposition through spiritual warfare actually works. More importantly, they have no idea how to effectively and efficiently respond to these attacks. Scripture nowhere indicates that a wish, a hope, a cliché, or a sincere guess represent adequate responses to attacks from these three very real enemies. Christians must be strategic in their responses to these clearly defined enemies, learning how to fight biblically rather than just sincerely. In *Spiritual Warfare*, Dr. Karl Payne-- pastor of Leadership Development and Discipleship at Antioch Bible Church and former Chaplain for the NFL's Seattle Seahawks-- has written a guidebook for recognizing and responding to spiritual warfare that is simple, biblical, and transferable. Pragmatically speaking, the materials in this book are biblically sound, battle tested, and they work. As Christians we are supposed to live life as victors, not victims. It is past time we learn how to consistently walk our talk in the midst of conflict rather than passively sing songs or daydream about courageous Christian living.

SOS Help for Parents Lynn Clark 1996-01-01 This second edition of "SOS" provides parents with guidance for handling a variety of common behavior problems based on the behavior approach to child rearing and discipline. This approach suggests that good and bad behavior are both learned and can be changed, and proposes specific methods, skills, procedures, and strategies for parents to use in getting improved behavior from their children. The guide is divided into four sections. Section 1 presents some fundamentals of child behavior and effective discipline. Some of the causes of children's misbehavior are examined as well as ways of increasing good behavior and eliminating bad ones. Section 2 provides advice for implementing the "time-out" method. Section 3 gives suggestions on how to: (1) manage bad behavior away from home; (2) use points, tokens, and contracts; (3) use time-out on two children at the same time; (4) use time-out on a toy instead of the child; (5) handle aggressive and dangerous behavior; and (6) help children express feelings. Section 4 suggests some additional resources for helping children. Each chapter includes a review of the most important ideas and instructions presented. The book's two appendices include an index of problem behaviors, quizzes and answers for parents, more resources for professionals, and tear-out sheets for parents and teachers. Approximately 60 references are included. A videotape, not available from ERIC, demonstrates the child-rearing rules, and errors to avoid, as well as other child management methods. A printed "Video Leader's Guide" for the training leaders provides objectives, suggested outlines for workshops, and guidelines for discussing the behavior vignettes in the video. Workshop evaluation forms and handouts are appended. A parent audio cassette on how to use "time out" effectively is also part of this multimedia package. (HTH)

Disabling Obesity Paolo Capodaglio 2013-04-04 Obesity is currently regarded as one of the major health challenges of the developed world. Excess body weight is an important risk factor for morbidity and mortality from cardiovascular diseases, diabetes, cancer, musculoskeletal disorders and even psychiatric problems and is estimated to cause nearly 3 million deaths per year worldwide. Obesity is not necessarily associated with comorbidities: there are indeed metabolically healthy obese individuals. Thus, we need to consider individuals presenting simple with obesity separately from those at risk of developing or who have already developed complex clinical states potentially leading to disability. Comorbidities can tip the balance of independence in patients who already have functional limitations

mainly due to the excess of mass itself or who develop conditions such as diabetes, cardiovascular conditions, non-alcoholic fatty liver disease, where an abnormal metabolism of adipose tissue prevails. Morbid obesity with comorbidities leading to disability represents a real social and economic burden for National Health Systems worldwide. The presence of multiple and associated comorbidities often represents an obstacle to being admitted to hospitals for the treatment of metabolic diseases. On the other hand, clinical units with optimal standards for the treatment of pathological conditions in normal-weight patients are often structurally and technologically inadequate for the care of patients with extreme obesity. The aim of this book is to focus on the pathophysiological and rehabilitative aspects of disabling obesity, highlighting multidisciplinary rehabilitation interventions as key to counteracting the disabling aspects of complicated obesity.

Ethan Stowell's New Italian Kitchen Ethan Stowell 2010-09-21 Welcome to Ethan Stowell's New Italian Kitchen--not so much a place as a philosophy. Here food isn't formal or fussy, just focused, with recipes that honor Italian tradition while celebrating the best ingredients the Pacific Northwest has to offer. We're talking about a generous bowl of steaming handmade pasta--served with two forks for you and a friend. Or perhaps an impeccably fresh crudo, crunchy cucumber and tangy radish accenting impossibly sweet spot prawns. Next up are the jewel tones of a beet salad with lush, homemade ricotta, or maybe a tangle of white beans and clams spiked with Goat Horn pepper--finished off with a whole roasted fish that begs to be sucked off the bones. Oh, some cheese, a gooseberry compote complementing your Robiola, or the bittersweet surprise of Campari sorbet. This layered approach is a hallmark of Ethan's restaurants, and in his New Italian Kitchen, he offers home cooks a tantalizing roadmap for re-creating this style of eating. Prepare a feast simply by combining the lighter dishes found in "Nibbles and Bits"--from Sardine Crudo with Celery Hearts, Pine Nuts, and Lemon to Crispy Young Favas with Green Garlic Mayonnaise--or adding recipes with complex flavors for a more sophisticated meal. Try the luscious Corn and Chanterelle Soup from "The Measure of a Cook;" or the Cavatelli with Cuttlefish, Spring Onion, and Lemon from "Wheat's Highest Calling." Up the ante with a stunning Duck Leg Farrotto with Pearl Onions and Bloomsdale Spinach from "Starches to Grow On," or choose one of the "Beasties of the Land," like Skillet-Roasted Rabbit with Pancetta-Basted Fingerlings. Each combination will nudge you and your guests in new, unexpected, and unforgettable directions. Every page of Ethan Stowell's New Italian Kitchen captures the enthusiasm, humor, and imagination that make cooking one of life's best and most satisfying adventures. It's got to be good--but it's also got to be fun.

The Political Background to Aeschylean Tragedy A.J. Podlecki 1999-02-25 The author examines the seven extant plays of Aeschylus against the political and military background of his time. As one who himself fought at the battle of Salamis, Aeschylus was profoundly concerned with military events (the messenger speech in *Persians*) and political changes (*Eumenides*). In this volume, Podlecki adopted a 'historicist' approach to tragedy, adding a new dimension to the understanding of Aeschylus' poetry.
