Produce stunning trailers. Craft your own Hollywood-style "Coming Attractions!" previews. Share your masterpiece. Quickly post movies to YouTube, Facebook, Vimeo, CNN iReport, and iTunes. Watch iMovie Theater. Play your movies on any Apple gadget in iMovie's new full-screen cinema.

Self-Help, Inc. Micki McGee 2005-09-08 Why doesn't self-help help? Millions of people turn to self-improvement when they find that their lives aren't working out quite as they had imagined. The market for self-improvement products - books, audiotapes, life-makeover seminars and regimens of all kinds - is exploding, and there

seems to be no end in sight for this trend. In "Self-Help, Inc.: Makeover Culture in American Life", cultural critic Micki McGee asks what our seemingly insatiable demand for self-help can tell us about ourselves at the outset of this new century. The answers are surprising. Rather than finding an America that is narcissistic or self-involved, as others have contended, McGee sees a nation relying on self-help culture for advice on how to cope in an increasingly volatile and competitive work world. For Americans today, a central component of working has become working on themselves. "Be all one can be," they are told. Build your own personal brand. As women have entered the paid labor force in growing numbers, the Protestant work ethic has been augmented by a Romantic imperative that one create a vision - a script - for one's life.; More and more, Americans are compelled to regard themselves in effect as "human capital." No longer simply an enterprising or entrepreneurial individual, the

new worker is the artist and the artwork, the "CEO of Me, Inc.," in Tom Peters' memorable phrase, and the central product line. "Self-Help, Inc." reveals how makeover culture traps Americans in endless cycles of self-invention and overwork as they struggle to stay ahead of a rapidly restructuring economic order. A lucid and fascinating treatment of the modern obsession with work and self-improvement, this book will strike a chord with its diagnosis of the self-help trap and with its suggestions for how we can address the alienating conditions of modern work and family life.

Office 2008 for Mac All-in-One For Dummies Geetesh Bajaj 2009-10-12 The perfect companion for taking the Microsoft Office suite to the Mac! So you finally got a Mac, but you're not looking forward to figuring out how Office works in a different environment? No worries! with Office and Web 2.0, as well as other common business tasks. This book makes it that easy!

Excel User Guide Colombo Publishing
Company 2021-06-21

Do you think Excel is a difficult software to use?

Do you want to increase your Excel abilities with all its functions?

master the most useful and famous spreadsheet in the world: you will discover the shortcuts to simplify your work and the formulas to automate your projects.

Excel is an *indispensable* tool for companies. The problem is, that many people find it complicated or don't know how to take full advantage of all its formulas. This software has specific features for any situation: using them, **you can save a lot of time.**

Using Excel has never been easier and faster!

The more you advance your Excel skills, the more efficiently you will be able to complete a variety of projects and tasks. For example:

With this step-by-step guide you will learn to

◆ *Conditional formatting* allows you to apply a

format to a cell or a range of cells based on a given criteria which will make data easier to read.

◆ *Pivot Tables* and *charts* will allow you to quickly identify trends in large datasets and inform business decisions.

Would you like to become a pro in Excel?

“Excel user guide” is a unique manual of its kind: practical and fast, it contains all the information you need to learn how to use Excel in the best way. You will start from the basics and increase your notions to have a complete training on the multiple functions.

Here is what you will find inside the book:

- The steps to start using Excel
- The basic functions
- Data entry and editing
- Date and time functions
- Logical and Math features
- Lookup functions
- Information and Financial functions
- Top Excel tips and tricks

... and much more!

Whether you're a complete *beginner*, or someone who wants to *learn more* using best practice, this is the book for YOU.

So, what are you waiting for? Click on “Buy-now” button to start learning Excel quickly!

Communicating Risks and Benefits Baruch Fischhoff 2012-03-08 Effective risk communication is essential to the well-being of any organization and those people who depend on it. Ineffective communication can cost lives, money and reputations. Communicating Risks and Benefits: An Evidence-Based User’s Guide

provides the scientific foundations for effective communications. The book authoritatively summarizes the relevant research, draws out its implications for communication design, and provides practical ways to evaluate and improve communications for any decision involving risks and benefits. Topics include the communication of quantitative information and warnings, the roles of emotion and the news media, the effects of age and literacy, and tests of how well communications meet the organization's goals. The guide will help users in any organization, with any budget, to make the science of their communications as sound as the science that they are communicating.

Apple Pro Training Series Joe Torelli

2010-04-09 Broadcast editors work with deadlines that are the most demanding in the field. To help you meet those deadlines and learn to use Final Cut Pro at the same time, this easy look-up guide focuses on the essential features that you need to get your stories done quickly

without sacrificing quality. For editing everything from voiceovers to sports and news packages, you'll get tips for efficient setup, customization, and trimming techniques. You'll learn the best methods for making audio adjustments, how to use common transitions and effects, splice in fat and tight bites, cover narration with B-Roll, and prepare a story for delivery. "No one teaches cutting edge technology better than Joe Torelli. Read his book. In clear, simple terms, he'll show you things you might miss that will make you a better storyteller." —Bob Dotson, Emmy Award-winning NBC News correspondent "As the first person to use an Avid digital nonlinear editing system in a broadcast environment, who better than Joseph Torelli to write the definitive book on fast story editing under tremendous deadline pressures than this veteran broadcast videographer-editor." —Tom Ohanian, Academy Award and two-time Emmy Award recipient and Co-Inventor, Avid Media, Film, Multicamera

Systems

Organizational Behaviour Daniel King

2013-03-14 This brand new textbook on organizational behaviour features a fictional running case study to help students see how theory translates into practice in a familiar setting. Covering all the organizational behaviour topics a new student needs to know, and packed with real-life examples, this innovative approach truly brings the subject to life.

MHRA Style Guide Glanville Price 2008 Now in its second edition, the MHRA Style Guide is an indispensable tool for authors and editors of scholarly books, contributors to academic publications, and students preparing theses. The Style Guide succeeds the best-selling MHRA Style Book, five editions of which were published from 1971 to 1996. Though originally designed for use in connection with the publications of the Modern Humanities Research Association, the Style Book became a standard book of reference,

particularly in the humanities, and has been adopted by many other authors, editors, and publishers. This new edition of the Style Guide has been revised and updated by a subcommittee of the MHRA. It provides comprehensive guidance on the preparation of copy for publication and gives clear and concise advice on such matters as spelling (including the spelling of proper names and the transliteration of Slavonic names), abbreviations, punctuation, the use of capitals and italics, dates and numbers, quotations, notes, and references. Chapters on indexing, the preparation of theses and dissertations, and proof correcting are also included

The Complete User's Guide to the Amazing Amazon Kindle Stephen Windwalker 2008 The bestselling unauthorized guide that will ensure that you get the most out of the Kindle - or give you all the information you need before you decide to buy.

Story behind the Protest Song: A Reference

Guide to the 50 Songs That Changed the 20th Century Hardeep Phull 2008-10-30 Protest songs are united by the fact they all have something to say, something to dispute, or something to rile against, whether it be political, social, or personal. *Story Behind the Protest Song* features 50 of the most influential musical protests and statements recorded to date, providing pop-culture viewpoints on some of the most tumultuous times in modern history. Among the featured: songs about the Vietnam War, the civil rights movement, the most recent upheaval over policy in the Middle East, as well as teenage rebellion, animal rights, criticisms of mass media, and even protest songs that lambaste other protest songs. This indispensable guide tackles it all: the behind-the-scenes stories of the most influential protest songs in American popular culture, examining the subjects they address, the legacy they left, and the fabric of the songs themselves. Chronically arranged entries cover nearly 70 years of music and offer

an expansive range of genres, including rock, punk, pop, soul, hip-hop, country, folk, indie, heavy metal, and more. Each entry discusses the songwriter(s); the inspiration behind the song; and the social, cultural, and political context in which the song was released. Following a detailed musical and lyrical analysis, the entries explain the songs' impact and relevance today. Among the featured: • The Unknown Soldier (The Doors) • Masters of War (Bob Dylan) • Say It Loud-I'm Black and I'm Proud (James Brown) • Get Up, Stand Up (The Wailers) • Big Yellow Taxi (Joni Mitchell) • Their Law (Prodigy) • American Idiot (Green Day) • Sweet Home Alabama (Lynrd Skynrd) • Born in the USA (Bruce Springsteen) • Southern Man (Neil Young) Entries are accompanied by further readings and a select discographies as well as a comprehensive resource guide at the end of the book. A must-read for students of music, history, and politics, this volume offers a unique reflection on the most significant and moving

protest songs in American history.

Apple Pro Training Series Kevin M. White
2011-10-07 The only Apple-certified book on OS X Lion, this revised best-seller will take you deep inside the latest big-cat operating system—covering everything from installation and configuration, customizing the operating system, supporting applications, setting up peripherals, and more. Whether you're a support technician or simply an ardent Mac user, you'll quickly learn and master the new features in OS X Lion. Find your photos quickly. Employ Photos' powerful labeling, keyword and facial recognition features to optimize searches. Sharpen your editing skills. Skillfully use Photos' impressive image- and video-editing tools on your Mac or iOS device. Access photos anywhere. Sync your library to all of your Apple devices so your photos travel with you wherever you go. Share them online. Show your shots to everyone on your list by using shared albums, creating web galleries, posting them on Facebook, and more. Dive into creative projects. Build pro-level slideshows to share with others, and create gorgeous gift books, calendars, and cards.

Merck Veterinary Manual Susan E. Aiello 2000
For more than forty years, animal health professionals have turned to the Merck Veterinary Manual for integrated, concise and reliable veterinary information. Now this manual covering the diagnosis, treatment, and prevention of diseases of companion, food and zoo animals is available on an easy-to-use, fully searchable CD-ROM. The CD includes the full text of The Merck Veterinary Manual 8/e and has been enhanced with picture links featuring original anatomical artwork and numerous clinical and diagnostic illustrations, table links and quick search links that provide quick access to cross referenced text.

Human-Computer Interaction. Novel Interaction Methods and Techniques Julie A. Jacko 2009-07-14 The 13th International Conference on Human-Computer Interaction, HCI International 2009, was held in San Diego, California, USA, July 19-24, 2009, jointly with the Symposium on Human Interface (Japan)

2009, the 8th International Conference on Engineering Psychology and Cognitive Ergonomics, the 5th International Conference on Universal Access in Human-Computer Interaction, the Third International Conference on Virtual and Mixed Reality, the Third International Conference on Internationalization, Design and Global Development, the Third International Conference on Online Communities and Social Computing, the 5th International Conference on Augmented Cognition, the Second International Conference on Digital Human Modeling, and the First International Conference on Human Centered Design. A total of 4,348 individuals from academia, research institutes, industry and governmental agencies from 73 countries submitted contributions, and 1,397 papers that were judged to be of high scientific quality were included in the program. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems.

The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in the knowledge and effective use of computers in a variety of application areas.

Life Georges Perec 2012-04-24 In this ingenious book Perec creates an entire microcosm in a Paris apartment block. Serge Valene wants to make an elaborate painting of the building he has made his home for the last sixty years. As he plans his picture, he contemplates the lives of all the people he has ever known there. Chapter by chapter, the narrative moves around the building revealing a marvellously diverse cast of characters in a series of every more unlikely tales, which range from an avenging murderer to an eccentric English millionaire who has devised the ultimate pastime...

Excel X for Mac OS X Maria Langer 2002 Excel X for Mac OS X is the model OS X app, from its Aqua interface to its complete support for OS X's modern architecture. In Excel X for Mac OS X:

Visual QuickStart Guide, author Maria Langer, veteran Mac writer and consultant, walks you through all that's new and noteworthy in Microsoft's spreadsheet powerhouse, dispensing lots of expert tips along the way. Maria knows you're a busy professional. That's why Excel X for Mac OS X: VQS was designed to let you learn as you work. Use it as a quick-reference guide: Just look up a topic in the index--or use the page tabs to thumb to it--then follow the simple, concise steps and check your results against the accompanying screenshots. Newcomers can treat the book as a step-by-step introduction to Excel, starting with the basics, then moving on to more advanced techniques, such as inserting objects and multimedia events, creating charts and graphs, and publishing spreadsheets to the Web.

Intelligence and Security Informatics Daniel Ortiz-Arroyo 2008-11-27 This book constitutes the refereed proceedings of the First European Conference on Intelligence and Security

Informatics, EuroISI 2008, held in Esbjerg, Denmark, in December 2008. The 23 revised full papers and 2 revised poster papers presented were carefully reviewed and selected from 48 submissions. The papers are organized in topical sections on criminal and social network analysis, intelligence analysis and knowledge discovery, Web-based intelligence monitoring and analysis, privacy protection, access control, and digital rights management, malware and intrusion detection, as well as surveillance and crisis management.

Ralph Ellison's Invisible Man: A Reference Guide Michael D. Hill 2008-01-30 Ralph Ellison's *Invisible Man* is one of the most widely read works of African American literature. This book gives students a thorough yet concise introduction to the novel. Included are chapters on the creation of the novel, its plot, its historical and social contexts, the themes and issues it addresses, Ellison's literary style, and the critical reception of the work. Students will

welcome this book as a guide to the novel and the concerns it raises. The volume offers a detailed summary of the plot of *Invisible Man* as well as a discussion of its origin. It additionally considers the social, historical, and political contexts informing Ellison's work, along with the themes and issues Ellison addresses. It explores Ellison's literary art and surveys the novel's critical reception. Students will value this book for what it says about *Invisible Man* as well as for its illumination of enduring social concerns. *Switching to the Mac: The Missing Manual, Yosemite Edition* David Pogue 2015-01-22 What makes Windows refugees decide to get a Mac? Enthusiastic friends? The Apple Stores? Great-looking laptops? A "halo effect" from the popularity of iPhones and iPads? The absence of viruses and spyware? The freedom to run Windows on a Mac? In any case, there's never been a better time to switch to OS X—and there's never been a better, more authoritative book to help you do it. The important stuff you

need to know: Transfer your stuff. Moving files from a PC to a Mac by cable, network, or disk is the easy part. But how do you extract your email, address book, calendar, Web bookmarks, buddy list, desktop pictures, and MP3 files? Now you'll know. Recreate your software suite. Many of the PC programs you've been using are Windows-only. Discover the Mac equivalents and learn how to move data to them. Learn Yosemite. Apple's latest operating system is faster, smarter, and more in tune with iPads and iPhones. If Yosemite has it, this book covers it. Get the expert view. Learn from Missing Manuals creator David Pogue—author of OS X Yosemite: The Missing Manual, the #1 bestselling Mac book on earth.

Switching to the Mac: The Missing Manual, Mountain Lion Edition David Pogue
2012-09-14 Demonstrates how to become adjusted to the Macintosh operating system and how to transfer data from a Windows system to a Macintosh, discussing topics such as moving

files and Macintosh equivalents to Windows-only programs.

The Complete Beginners Guide to Mac OS X El Capitan Scott La Counte 2015-10-10

Whether you are a new convert to Mac, still thinking about making the switch, or just want to learn more about Macs, this book will guide you through the Mac OS and help you see how making the switch really isn't the great leap that you once thought it was. While this book was written for anyone new to Mac, it is especially geared for people who are switching to Mac from Windows. This book will show you the basics and show you how to do the common day tasks you know on Windows (like right clicking). It will also show you how to get your Mac in sync with your iPad or iPhone, and how to do everyday tasks like change background, find files, and performance tweaks to keep your Mac running like new. Please note, while every effort has been made to ensure accuracy, this book is not endorsed by Apple and should be consider

unofficial.

MacOS High Sierra: The Missing Manual

David Pogue 2018-01-31 With High Sierra, Apple has taken its macOS operating system to new heights. From Apple's efficient new file system to improved video streaming and support for virtual reality, this latest macOS version provides features improve your experience. Art Book News Annual, volume 4: 2008 *Art Book News Annual, volume 4: 2008*

Proceedings of the 12th Reinventing Space Conference Scott Hatton 2016-12-25 The proceedings of the 2014 Reinventing Space conference present a number of questions in the context of a constantly innovating space industry, from addressing the future of global cooperation, investigating the impact of cuts in US government spending on the private space sector, and probing the overall future of the commercial launch sector. Space tourism and new technology promise the revival of interest in space development (the Apollo Era was the first

period of intense space activity and growth). The need to create dramatically lower cost, responsive and reliable launch systems and spacecraft has never been more vital. Advances in technology are allowing smaller and cheaper satellites to be orbited - from cubesats to nanosatellites to femtosatellites. Thanks to more efficient new launch possibilities, low cost access to space is becoming ever more achievable. Commercial companies and countries are targeting the industry with new funding. Organised by the British Interplanetary Society, the presentations at this conference thoroughly address these challenges and opportunities.

A User's Guide to Capitalism and Schizophrenia Brian Massumi 1992-03-06 *A User's Guide to Capitalism and Schizophrenia* is a playful and emphatically practical elaboration of the major collaborative work of the French philosophers Gilles Deleuze and Felix Guattari. When read along with its rigorous textual notes, the book

also becomes the richest scholarly treatment of Deleuze's entire philosophical oeuvre available in any language. Finally, the dozens of explicit examples that Brian Massumi furnishes from contemporary artistic, scientific, and popular urban culture make the book an important, perhaps even central text within current debates on postmodern culture and politics. *Capitalism and Schizophrenia* is the general title for two books published a decade apart. The first, *Anti-Oedipus*, was a reaction to the events of May/June 1968; it is a critique of "state-happy" Marxism and "school-building" strains of psychoanalysis. The second, *A Thousand Plateaus*, is an attempt at a positive statement of the sort of nomad philosophy Deleuze and Guattari propose as an alternative to state philosophy.

Qualitative Research in Education Marilyn Lichtman 2010 *Qualitative Research in Education: A User's Guide, Second Edition* brings together the essential elements of

qualitative research, including traditions and influences in the field and practical, step-by-step coverage of each stage of the research process. Synthesizing the best thinking on conducting qualitative research in education, Marilyn Lichtman uses a conversational writing style that draws readers into the excitement of the research process. --from publisher description.

The new edition of David Pogue's #1 bestselling Mac book shows you how to use key new features such as swiping gestures, Notes, a new Spotlight search system, the Safari pinning feature, and Split View. *Missing Manuals* creator David Pogue is one of the most widely recognized technology authors in the world. A former New York Times technology columnist, he founded and now

produces videos for Yahoo Tech.

The Art of Leading Collectively Petra Kuenkel

2016-01-20 A guide to collaborative impact for leaders in industry, government, and social change networks Our world is facing unsustainable global trends—from climate change and water scarcity to energy insecurity, unfair labor practices, and growing inequality. Tackling these crises effectively requires a new form of leadership—a collective one. But, in a world of many silos, how do we get people to work together toward a common goal? That is one of the most important questions facing sustainability and social-change professionals around the world, and it is a question that Petra Kuenkel answers in *The Art of Leading Collectively*. Readers learn how to tackle system change for sustainable development, reimagine leadership as a collaborative endeavor, retrain leaders to work collectively, and manage diverse groups through a change process that has sustainability as a guiding focus. Drawing upon

two decades of pioneering, internationally recognized work orchestrating multi-stakeholder initiatives, Kuenkel presents her chief tool, the Collective Leadership Compass, and shows others how to use it with large groups of diverse stakeholders to solve complex, urgent problems—particularly those that enmesh business activities, governance, human needs, and environmental impacts. The book offers many examples of collective leadership efforts involving corporate, public, and nonprofit sectors around the world. Readers learn about the processes that led to a sustainable textile alliance and set standards for sustainable cocoa and coffee production and trade, as well as those that helped nations rebound from war, develop sustainable infrastructure, and tackle resource conflicts with global businesses, to name a few. Kuenkel provides a clear roadmap for leaders from multinational companies involved in partnerships, international organizations engaged in cooperative development, public

agencies, and interest groups—as well as for citizens seeking solutions to social and sustainability challenge

OS X El Capitan: The Missing Manual David Pogue 2015-11-16 With El Capitan, Apple brings never-before-seen features to OS X—like a split-screen desktop, improved window controls, and amazing graphics. The new edition of David Pogue's #1 bestselling Mac book shows you how to use key new features such as swiping gestures, Notes, a new Spotlight search system, the Safari pinning feature, and Split View. Missing Manuals creator David Pogue is one of the most widely recognized technology authors in the world. A former New York Times technology columnist, he founded and now produces videos for Yahoo Tech.

Exotic Fruits Reference Guide Sueli Rodrigues 2018-01-05 *Exotic Fruits Reference Guide* is the ultimate, most complete reference work on exotic fruits from around the world. The book focuses on exotic fruit origin, botanical aspects,

cultivation and harvest, physiology and biochemistry, chemical composition and nutritional value, including phenolics and antioxidant compounds. This guide is in four-color and contains images of the fruits, in addition to their regional names and geographical locations. Harvest and post-harvest conservation, as well as the potential for industrialization, are also presented as a way of stimulating interest in consumption and large scale production. Covers exotic fruits found all over the world, described by a team of global contributors Provides quick and easy access to botanical information, biochemistry, fruit processing and nutritional value Features four-color images throughout for each fruit, along with its regional name and geographical location Serves as a useful reference for researchers, industrial practitioners and students
A Beginners Guide to Using Mac OS X (10.10) Yosemite Katie Morris 2014-10-28 Apple Maps. Robert Downey Jr. Detroit. These are a few

examples of great things that just needed some hard work and a fresh look to really explode. After OS X Mavericks was met with indifference, many worried that future OS X updates would continue to be a steady stream of minor upgrades and tweaks. Continuing the new naming convention of Californian locations, the new iteration will be dubbed 'Yosemite' after California's beloved national park, with no relation to a certain Looney Tunes character. With OS X Yosemite, Apple is showing the world that OS X is not doomed to incremental upgrades, and diligently went through everything "feature by feature, pixel by pixel" to create a totally new and improved makeover for an old friend. If you've used any OS X version before, there's no way you'll feel totally lost as you forage through Yosemite but your computer will definitely look and feel like a brand new system. There are many new changes both aesthetic and mechanical, and this guide will take you through it all whether you're an OS X

spring chicken or a grizzled Mac veteran. If this is your first Apple computer (congrats on making the jump by the way!), we will also detail how to switch everything over from your old PC, and show you the differences between Windows and Mac. If you are ready to learn the ins and outs of OS X Yosemite, grab a fresh cup of coffee (decaf if it's late) and let's get to work.

Apple Training Series Kevin M. White
2009-12-14 Apple Training Series: Mac OS X Deployment v10.6 uses a combination of task-based instruction and strong visuals to teach intermediate and advanced users how to deploy a wide range of files and systems to multiple users in a large organization. Author Kevin White takes readers through the deployment of software, ranging from individual files, to complete systems, to multiple users, discussing the range of methodologies used. Intermediate users will learn how to use Apple deployment tools, including Disk Utility, PackageMaker, and Apple Software Restore. Advanced users will

learn how to customize deployment solutions with scripts to provide post-installation configuration. Throughout the book, users learn how to tie all the solutions together to create fully integrated software and hardware deployment plans. The Apple Training Series serves as both a self-paced learning tool and the official curriculum for the Mac OS X and Mac OS X Server certification programs.
