The M1 Carbine Leroy Thompson 2011-11-20 In 1938 the US Chief of Infantry requested that the

Ordnance Department develop a carbine to be used by service and support troops, artillerymen, machine-gun crews, tankers, mortar crews and

other troops not needing the power of the M1 Garand rifle. The development of this new weapon was given an added impetus by Germany's successful use of airborne and glider troops early on in World War II. This caused a fear amongst US officers that troops normally considered 'behind the lines' personnel might have to fight elite German troops and would therefore require a more effective weapon than their standard pistols. The resulting M1 Carbine was a not a shortened version of the standard service rifle but instead a brand-new design chambering a new cartridge. Eventually numerous manufacturers would combine to produce over six million M1 Carbines before the end of the war. This book charts the complete story of the weapon, from its design, to its operational history and its impact upon warfare. *Metal Music Manual* Mark Mynett 2017-03-27 *Metal Music Manual* shows you the creative and technical processes involved in producing contemporary heavy music for maximum sonic

Literary Translation, Reception, and Transfer
Norbert Bachleitner 2020-09-21 The three
concepts mentioned in the title of this volume
imply the contact between two or more literary
phenomena; they are based on similarities that
are related to a form of 'travelling' and imitation
or adaptation of entire texts, genres, forms or
contents. Transfer comprises all sorts of
'travelling', with translation as a major
instrument of transferring literature across
linguistic and cultural barriers. Transfer aims at
the process of communication, starting with the

source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

Digital Revolution Tamed Hyojung Sun
2018-08-03 This book explores why widespread predictions of the radical transformation in the recording industry did not materialise. Although the growing revenue generated from streaming signals the recovery of the digital music business, it is important to ask to what extent is the current development a response to digital innovation. Hyojung Sun finds the answer in the detailed innovation process that has taken place since Napster. She reassesses the way digital music technologies were encultured in complex music valorisation processes and demonstrates how the industry has become reintermediated rather than disintermediated. This book offers a new understanding of digital disruption in the recording industry. It captures the complexity of the innovation processes that brought about

technological development, which arose as a result of interaction across the circuit of the recording business – production, distribution, valorisation, and consumption. By offering a more sophisticated account than the prevailing dichotomy, the book exposes deterministic myths surrounding the radical transformation of the industry.

The Last Master Outlaw Tom Szollosi

2016-07-11 In 1971, a skyjacker with a briefcase bomb demanded a \$200,000 ransom and a parachute. Then he vanished out the jet's back door and became an instant legend. Now a determined citizen sleuth has assembled a forty-member cold case team, spearheaded by former FBI agents, to solve the mystery of D. B. Cooper. And after a five-year quest, they believe they have succeeded--with a fugitive at trail's end. The team's relentless investigation and final confrontation with the mystery man serve as the bookends in *The Last Master Outlaw*. The subject's astonishing life story as a daredevil fills the remaining chapters, the bulk of which comes from the heartwarming, gut-wrenching accounts of six of his women--two former wives; his only sister; a befriended college coed; a "getaway gal" he met up with during two more FBI escapes, both again involving planes; and a

Hollywood producer who was also his cocaine-trade partner. Buckle your seatbelts as this Jekyll-and-Hyde ladies' man travels through five countries, utilizing more than a dozen identities, wigs, and fake mustaches while engaging in a half-dozen careers and raising three families. Then be a witness as the cornered chameleon is forced to face the truth in front of the cameras of a dogged cold case team, which was armed and ready for any eventuality.

Rebetiko Worlds Dafni Tragaki 2009-01-14

Rebetiko Worlds invites the reader to share the experience of rebetiko music-making in the city of Thessaloniki today. It aims at representing an ethnographic world made of diverse realities united by the melancholic sounds of rebetiko songs. Rather than a musicological account on rebetiko music, this ethnography is about the human encounters happening in certain rebetiko venues of the Ano Poli area in Thessaloniki. How do people perceive, practice, feel and imagine rebetiko song—a music tradition coming from

the beginning of the 20th century—today? What are the worldviews embodied and inspired in the context of the ongoing rebetiko performances? And, how may the exploration of rebetiko revivalist culture convey understandings of broader music-cultural orientations defining contemporary Greek society? This ethnography is primarily interested in knowing contemporary rebetiko culture as a ‘lived experience’. It captures instances of the life-worlds of the people involved in the rebetiko revival, which unravel the ways local traditions are re-defined in the context of the nostalgic re-invention of ‘ethnic’ music in postcolonial times. On this level, the representation of the discourses and aesthetics associated with rebetiko performances today instigate further interpretations of local cultural trends, the visions of ‘our’ future triggered by the mythicized representations of ‘our’ past. Beyond a window to the rebetiko worlds of today, this book recounts the story of an ethnographer

engaged in fieldwork ‘at home’. It aims at communicating the dynamics of reflexivity shaping the ethnographic self by proposing an understanding of the fieldwork experience as a ‘special ontology’. In this way, it reveals the various dilemmas, moments of enthusiasm and moments of despair lived in the process of research in an attempt to illuminate the poetics of the subjective cultural knowledge. *Rebetiko Worlds* incites the reader to share the poetics of ethnographic ‘fiction’ and interpretation and, through this, the gradual ‘making’ of the ethnomusicologist in the field.

The Enemy in Contemporary Film Martin

Löschnigg 2018-08-21 Culture and conflict inevitably go hand in hand. The very idea of culture is marked by the notion of difference and by the creative, fraught interaction between conflicting concepts and values. The same can be said of all key ideas in the study of culture, such as identity and diversity, memory and trauma, the translation of cultures and globalization, dislocation and emplacement, mediation and exclusion. This series publishes theoretically informed original scholarship from the fields of literary and cultural studies as well as media, visual, and film studies. It fosters an interdisciplinary dialogue on the multiple ways in which conflict supports and constrains the production of meaning, on how conflict is represented, how it relates to the past and projects the present, and how it frames scholarship within the humanities. Greek Whisky Tryfon Bampilis 2013-04-30 In many contexts of Greek social life, Scotch whisky has coincidentally become a symbol of "Greekness," national identity, modernity, and the middle class. This ethnographic study follows the social life of Scotch in Greece through three distinct trajectories in time and space in order to investigate how the meanings of the beverage are projected, negotiated, and acquired by various different networks. By examining the mediascapes of the Greek cultural industry, the Athenian nightlife and entertainment, and the North Aegean drinking habits, the study illustrates how Scotch became associated with modernity, popular music and culture, a lavish style, and an antidomestic masculine mentality.

In Praise of Commercial Culture Tyler COWEN 2009-06-30 Does a market economy encourage or discourage music, literature, and the visual arts? Do economic forces of supply and demand help or harm the pursuit of creativity? This book seeks to redress the current intellectual and popular balance and to encourage a more favorable attitude toward the commercialization of culture that we associate with modernity. Economist Tyler Cowen argues that the capitalist market economy is a vital but underappreciated institutional framework for supporting a plurality of co-existing artistic

visions, providing a steady stream of new and satisfying creations, supporting both high and low culture, helping consumers and artists refine their tastes, and paying homage to the past by capturing, reproducing, and disseminating it. Contemporary culture, Cowen argues, is flourishing in its various manifestations, including the visual arts, literature, music, architecture, and the cinema. Successful high culture usually comes out of a healthy and prosperous popular culture. Shakespeare and Mozart were highly popular in their own time. Beethoven's later, less accessible music was made possible in part by his early popularity. Today, consumer demand ensures that archival blues recordings, a wide array of past and current symphonies, and this week's Top 40 hit sit side by side in the music megastore. High and low culture indeed complement each other. Cowen's philosophy of cultural optimism stands in opposition to the many varieties of cultural pessimism found among conservatives, neo-

conservatives, the Frankfurt School, and some versions of the political correctness and multiculturalist movements, as well as historical figures, including Rousseau and Plato. He shows that even when contemporary culture is thriving, it appears degenerate, as evidenced by the widespread acceptance of pessimism. He ends by considering the reasons why cultural pessimism has such a powerful hold on intellectuals and opinion-makers.
