Geary knows that some political factions in the Alliance were just trying to get rid of him when he was assigned to escort a diplomatic and scientific mission to the far reaches of humanity’s expansion into the galaxy . . . and beyond. But he views his mission as both a duty and an opportunity to make things better wherever he can. And when a crippled Rift Federation ship tumbles out of jump space, Geary leaps into action. But the survivors’ story isn’t completely adding up. As Geary investigates, he soon finds himself fending off spies and assassins while leading the fleet as it fights its way across space controlled by the mysterious and hostile aliens whom humans call enigmas. Challenges arrive at every turn, including an unknown alien species that invites the fleet to visit one of their star systems. With little information to go on, Geary must weigh the benefits of potential new allies against the possibility of a trap. The fate of the fleet—and perhaps even the future of humanity—will depend on him making the right decision. If he can stay alive long enough to do that.

One species comes with an offer of friendship and alliance, but humanity is weary and distrustful, their only interactions with aliens having resulted in the near-eradication of their kind. Before the ashes of war have been fully swept away Captain Celesta Wright is dispatched to the Frontier with a small taskforce to investigate a mysterious signal while the Confederacy struggles to hold itself together. A partnership with this new species could help accelerate the recovery effort, but is the offer too good to be true? Can humanity risk another fight with an advanced alien species right on the heels of the bloodiest war that had ever been waged? New Frontiers is the first book of the Expansion Wars Trilogy, an all adventure in the Black Fleet universe.

But after helping their neighbor Kosatka against an invasion, Glenlyon has become a target. The aggressive star systems plan to neutralize Glenlyon before striking again. An attack is launched against Glenlyon’s orbital facility with forces too powerful for fleet officer Rob Geary to counter using their sole remaining destroyer, Saber. Mele Darcy’s Marines must repel repeated assaults while their hacker tries to get into the enemy systems to give Saber a fighting chance. To survive, Glenlyon needs more firepower, and the only source for that is their neighbor Kosatka or other star systems that have so far remained neutral. But Kosatka is still battling the remnants of the invasion forces on its own world, and if it sends its only remaining warship to help will be left undefended against another invasion. While Carmen Ochoa fights for the freedom of Kosatka, Lochan Nakamura must survive assassins as he tries to convince other worlds to join a seemingly hopeless struggle. As star systems founded by people seeking freedom and autonomy, will Kosatka, Glenlyon and others be able to overcome deep suspicions of surrendering any authority to others? What she didn’t realize was that she would find herself on a collision course, not with a hostile government, but with the interstellar syndicate of criminals known as Manpower. And Manpower had its own plans for eliminating Manticore as a possible threat to its lucrative slave trade, deadly plans which remain hidden in the shadows.
