*Hunting Evil* Guy Walters 2010 WAR CRIMES. At the end of the Second World War, some of the highest ranking members of the Nazi party escaped from justice. Some of them are names that have resonated deeply in twentieth-century history - Eichmann, Mengele, Martin Bormann and Klaus Barbie - not just for the monstrosity of their crimes, but also because of the shadowy nature of their post-war existence, holed up in the depths of Latin America, always one step ahead of their pursuers. The nature of their escape was as gripping as any good thriller. Guy Walters has travelled the world in pursuit of the real account of how the Nazis escaped at the end of the war, the attempts, sometimes successful, to bring them to justice, and what really happened to those that got away. He has interviewed Nazi hunters, former members of Mossad, and poured through archives across the globe to bring this remarkable period of our recent history to dramatic and vivid life.

is a comprehensive and insightful account of the CIA operation to overthrow the democratically elected government of Jacobo Arbenz of Guatemala in 1954. First published in 1982, this book has become a classic, a textbook case of the relationship between the United States and the Third World. The authors make extensive use of U.S. government documents and interviews with former CIA and other officials. It is a warning of what happens when the United States abuses its power.

**If This Is A Woman** Sarah Helm 2015-01-15 Winner of the Longman-History Today Book Prize: A 'profoundly moving chronicle' (Observer) that tells the story of Ravensbrück, the only concentration camp designed specifically for women, using new testimony from survivors On a sunny morning in May 1939 a phalanx of 800 women - housewives, doctors, opera singers, politicians, prostitutes - were marched through the woods fifty miles north of Berlin, driven on past a shining lake, then herded through giant gates. Whipping and kicking them were scores of German women guards.

Their destination was Ravensbrück, a concentration camp

designed specifically for women by Heinrich Himmler, prime architect of the Nazi genocide. For decades the story of Ravensbrück was hidden behind the Iron Curtain and today is still little known. Using testimony unearthed since the end of the Cold War, and interviews with survivors who have never spoken before, Helm has ventured into the heart of the camp, demonstrating for the reader in riveting detail how easily and quickly the unthinkable horror evolved. 'It not only fills a gap in Holocaust history but it is an utterly compelling read' Taylor Downing, *History Today* 'A sense of urgency infuses this history, which comes just in time to gather the testimony of the camp's survivors . . . meticulous, unblinking . . . [Helm's] book comes not a moment too soon' *The Economist*

*On the Run in Nazi Berlin* Bert Lewyn 2019-03-05 BERLIN, 1942. The Gestapo arrest eighteen-year-old Bert Lewyn and his parents, sending the latter to their deaths and Bert to work in a factory making guns for the Nazi war effort. Miraculously tipped off the morning the Gestapo round up all the Jews who work in the factories, Bert goes underground. He finds shelter sometimes with compassionate civilians, sometimes with people who find his skills useful and sometimes in the cellars of bombed-out buildings. Without proper identity papers, he survives as a hunted Jew in the flames and terror of Nazi Berlin in part by successfully mimicking non-Jews, even masquerading as an SS officer. But the Gestapo are hot on his trail... Before World War II, 160,000 Jews lived in Berlin. By 1945, only 3,000 remained alive. Bert was one of the few, and his thrilling memoir—from witnessing the famous 1933 book burning to the aftermath of the war in a displaced persons camp—offers an unparalleled depiction of the life of a runaway Jew

caught in the heart of the Nazi empire.

**Last Stop Auschwitz** Eddy de Wind 2020-01-09 THE SUNDAY TIMES AND INTERNATIONAL BESTSELLER 'The ultimate Holocaust testimony.' HEATHER MORRIS, author of *The Tattooist of Auschwitz* and Cilka's *Journey Afterword* by JOHN BOYNE, author of *The Boy in the Striped Pyjamas* \_\_\_\_\_ Eddy de Wind, a Dutch doctor and psychiatrist, was shipped to Auschwitz with his wife Friedel, whom he had met and married at the Westerbork labour camp in the Netherlands. At Auschwitz, they made it through the brutal selection process and were put to work. Each day, each hour became a battle for survival. For Eddy, this meant negotiating with the volatile guards in the medical barracks. For Friedel, it meant avoiding the Nazis' barbaric medical experiments. As the end of the war approached and the Russian Army drew closer, the last Nazis fled, taking many prisoners with them, including Friedel. Eddy hid under a pile of old clothes and stayed behind. Finding a notebook and pencil, he began to write with furious energy about his experiences. *Last Stop Auschwitz* is an extraordinary account of life as a prisoner, a near real-time record of the daily struggle to survive but also of the flickering moments of joy Eddy and Friedel found in each other. Documenting the best and the worst of humanity, it is a unique and timeless story that reminds us of what we as humans are capable of, but that there is hope, even in Hell. \_\_\_\_\_ WHAT READERS ARE SAYING: 'It's heart-wrenching, but there are pockets of resistance, rays of hope that shine through.' 'Powerful and ultimately uplifting... with courage and strength you can survive anything.' 'This is an important work. We must never forget.'

**Case Closed** Gerald Posner 2013-10-01 Pulitzer Prize Finalist: "By far the most lucid and compelling account . . . of what probably did happen in Dallas—and what almost certainly did not." —The New York Times Book Review The Kennedy assassination has reverberated for five decades, with tales of secret plots, multiple killers, and government cabals often overshadowing the event itself. As Gerald Posner writes, "Fifty years after the assassination, the biggest casualty has been the truth." In this first-ever digital edition of his classic work, updated with a special comment for the fiftieth anniversary, Posner lays to rest all of the convoluted conspiracy theories—concerning the mafia, a second shooter, and the CIA—that have obscured over the decades what really happened in Dealey Plaza on November 22, 1963. Drawing from official sources and dozens of interviews, and filled with powerful historical detail, Case Closed is a vivid and straightforward account that stands as one of the most authoritative books on the assassination of John F. Kennedy.

**Our Crime Was Being Jewish** Anthony Pitch 2015-04-28 The harrowing memories of 358 Holocaust survivors—from the ghettos to the concentration camps. "One of the most important books of our time." —National Archives In the shouted words of a woman bound for Auschwitz to a man about to escape from a cattle car, "If you get out, maybe you can tell the story! Who else will tell it?" These are the true, insider stories of victims, told in their own words. They include the experiences of teenagers who saw their parents and siblings sent to the gas chambers; of starving children beaten for trying to steal a morsel of food; of people who saw their friends commit suicide to save themselves from the daily agony they endured. The recollections are from the start of the war—the home invasions, the Gestapo busts, and the ghettos—as well as the daily hell of the concentration camps and what actually happened inside. Six million Jews were killed in the Holocaust. This hefty collection of stories was compiled by award-winning author Anthony S. Pitch, who worked with sources such as the United States Holocaust Memorial Museum to get survivors' stories compiled together and to supplement them with images from the war. These memories must be told and held onto so what happened is documented; so the lives of those who perished are not forgotten—so history does not repeat itself.

2017-04-06 When you think about the holocaust, what is the first thing that comes to mind? Are your thoughts about the millions of innocent Jewish people who died needlessly because of a narrow minded political party? Maybe your first thoughts are of an extremely short man with a wicked heart, named Adolf Hitler. It also conjures images of those responsible, sharp-dressed chisel-faced officers of the Nazi SS, presiding over this atrocity, this nightmare they created, the nightmare they condoned, and the horrible acts that they carried out while wearing stony expressions of cold detachment. There was no human compassion in their actions. There was no question of decency or shame, only a touch of defiance and the empty indifference of self-righteous apathy, combined with a complete lack of respect for human dignity, humanity, or human life. There was no human compassion, whatsoever. It was as if the Nazis suddenly forgot that Jewish people were human beings.

**The Saboteur of Auschwitz** Colin Rushton 2019-07-11 In 1942, young British soldier Arthur Dodd was taken prisoner by the German Army and transported to Oswiecim in Polish Upper Silesia. The Germans gave it another name, now synonymous with mankind's darkest hours. They called it Auschwitz. Forced to do hard labour, starved and savagely beaten, Arthur thought his life would end in Auschwitz. Determined to go down fighting, he sabotaged Nazi industrial work, risked his life to alleviate the suffering of the Jewish prisoners and aided a partisan group planning a mass break-out. This shocking true story sheds new light on the operations at the camp, exposes a hierarchy of prisoner treatment by the SS and presents the largely unknown story of the

military POWs held there.

**All the Horrors of War** Bernice Lerner 2020-04-14 The first book to pair the story of a Holocaust victim with that of a liberator, *All the Horrors of War* compels readers to consider the full, complex humanity of both. *Mengele* Gerald L. Posner 2000-08-08 Based on exclusive and unrestricted access to more than 5,000 pages of personal writings and family photos, this definitive biography of German physician and SS-Hauptsturmführer Josef Mengele (1911-1979) probes the personality and motivations of Auschwitz's "Angel of Death." From May 1943 through January 1945, Mengele selected who would be gassed immediately, who would be worked to death, and who would serve as involuntary guinea pigs for his spurious and ghastly human experiments (twins were Mengele's particular obsession). With authority and insight, Mengele examines the entire life of the world's most infamous doctor.

*The Pharmacist of Auschwitz* Patricia Posner 2017-01-18 *The Great Escape* Kati Marton 2006-10-17 Extravagantly praised by critics and readers, this stunning story by bestselling author Kati Marton tells of the breathtaking journey of nine extraordinary men from Budapest to the New World, what they experienced along their dangerous route, and how they changed America and the world. These nine men, each celebrated for individual achievements, were part of a unique group who grew up in a time and place that will never come again. Four helped usher in the nuclear age and the computer, two were major movie myth-makers, two were immortal

photographers, and one was a seminal writer. The Great Escape is a groundbreaking, poignant American story and an important untold chapter of the tumultuous last century.

No Hormones, No Fear Trisha Posner 2007-12-18 Five years ago, at the age of forty-six, Trisha Posner was surprised to learn from a blood test that she was in full-blown menopause. Her gynecologist urged her to begin hormones immediately, but, mindful of her family's history of breast cancer, she refused. *No Hormones, No Fear* is the story of Posner's search for an alternative to the AMA's sanctioned regimen of hormone replacement therapy. In a wonderfully engaging personal account, she reveals how she mastered menopause naturally, by developing a unique program involving exercise, diet, nutrition, and herbs. She not only successfully alleviated her symptoms but actually significantly improved her health and quality of life. Now updated with the latest major medical studies, which raise troubling questions about estrogen replacement for millions of women, *No Hormones, No Fear* is an indispensable primer for women confronting the thicket of conflicting information about whether or not to choose hormones during menopause. Trisha Posner, through her own inspiring story, shows that today's modern women finally have choices and can empower themselves by taking control of their health and lives.

*By Chance Alone* Max Eisen 2016-04-19 WINNER of CBC Canada Reads In the tradition of Elie Wiesel's *Night* and Primo Levi's *Survival in Auschwitz* comes a bestselling new memoir by Canadian survivor Finalist for the 2017 RBC Taylor Prize More than 70 years after the Nazi camps were liberated by the Allies, a new Canadian Holocaust memoir details the rural Hungarian deportations to

Auschwitz-Birkenau, back-breaking slave labour in Auschwitz I, the infamous "death march" in January 1945, the painful aftermath of liberation, a journey of physical and psychological healing. Tibor "Max" Eisen was born in Moldava, Czechoslovakia into an Orthodox Jewish family. He had an extended family of sixty members, and he lived in a family compound with his parents, his two younger brothers, his baby sister, his paternal grandparents and his uncle and aunt. In the spring of 1944--five and a half years after his region had been annexed to Hungary and the morning after the family's yearly Passover Seder--gendarmes forcibly removed Eisen and his family from their home. They were brought to a brickyard and eventually loaded onto crowded cattle cars bound for Auschwitz-Birkenau. At fifteen years of age, Eisen survived the selection process and he was inducted into the camp as a slave labourer. One day, Eisen received a terrible blow from an SS guard. Severely injured, he was dumped at the hospital where a Polish political prisoner and physician, Tadeusz Orzeszko, operated on him. Despite his significant injury, Orzeszko saved Eisen from certain death in the gas chambers by giving him a job as a cleaner in the operating room. After his liberation and new trials in Communist Czechoslovakia, Eisen immigrated to Canada in 1949, where he has dedicated the last twenty-two years of his life to educating others about the Holocaust across Canada and around the world. The author will be donating a portion of his royalties from this book to institutions promoting tolerance and understanding.

**The Druggist of Auschwitz** Dieter Schlesak 2011-04-26  
Dieter Schlesak's haunting novel *The Druggist of Auschwitz*—beautifully translated from the German by John Hargraves—is a frighteningly vivid portrayal of the Holocaust as seen through the eyes of criminal and victim alike. Adam, known as "the last Jew of Schäßburg," recounts with disturbing clarity his imprisonment at the infamous Auschwitz concentration camp. Through Adam's fictional narrative and excerpts of actual testimony from the Frankfurt Auschwitz Trial of 1963–65, we come to learn of the true-life story of Dr. Victor Capesius, who, despite strong friendships with Jews before the war, quickly aided in and profited from their tragedy once the Nazis came to power. Interspersed with historical research and the author's face-to-face interviews with survivors, the novel follows Capesius from his assignment as the "sorter" of new arrivals at Auschwitz—deciding who will go directly to the gas chamber and who will be used for labor—through his life of lavish wealth after the war to his arrest and eventual trial. Schlesak's seamless incorporation of factual data and testimony—woven into Adam's dreamlike

remembrance of a world turned upside down—makes *The Druggist of Auschwitz* a vital and unique addition to our understanding of the Holocaust.

*God's Bankers* Gerald Posner 2015-02-03

*The Death Marches* Daniel Blatman 2011-05-03  
Blatman writes about the end phase of the German concentration camp system when the Nazis, realizing that they were losing the war, were faced with the enormous problem of what to do with the people being held captive. As these camps were being evacuated, the collapse of the front in Poland and the advance of the Red Army generated frantic waves of flight and the evacuation of millions of civilians and soldiers. The panicky retreat created conditions under which prisoners were murdered in horrific death marches. Gas chambers in faraway camps were no longer in use, and now the slaughters took place on the very doorsteps of ordinary German civilians' homes and in the streets German and Austrian towns. Unknown numbers of ordinary civilians across the dissolving Reich, fearing for the fate of their families and property, participated in the lethal eruption of violence. The book is divided into two sections. The first part provides an detailed overview of the camp system and a thorough chronological treatment of the camp evacuations during the winter of 1944-45 and the spring of 1945. The second part is a case study of the atrocity in the German town of Gardelegen where over 1000 prisoners were murdered, along with about 400 in the surrounding villages. This event serves as a focused

example of the breakdown of the evacuation plans at the end of the war.

**Pharma** Gerald Posner 2021-04-13 Award-winning journalist and New York Times bestselling author Gerald Posner reveals the heroes and villains of the trillion-dollar-a-year pharmaceutical industry and delivers “a withering and encyclopedic indictment of a drug industry that often seems to prioritize profits over patients (The New York Times Book Review). Pharmaceutical breakthroughs such as antibiotics and vaccines rank among some of the greatest advancements in human history. Yet exorbitant prices for life-saving drugs, safety recalls affecting tens of millions of Americans, and soaring rates of addiction and overdose on prescription opioids have caused many to lose faith in drug companies. Now, Americans are demanding a national reckoning with a monolithic industry. “Gerald’s dogged reporting, sets Pharma apart from all books on this subject” (The Washington Standard) as we are introduced to brilliant scientists, incorruptible government regulators, and brave whistleblowers facing off against company executives often blinded by greed. A business that profits from treating ills can create far deadlier problems than it cures. Addictive products are part of the industry’s DNA, from the days when corner drugstores sold morphine, heroin, and cocaine, to the past two decades of dangerously overprescribed opioids. Pharma also uncovers the real story of the Sacklers, the family that became one of America’s wealthiest from the success of OxyContin, their blockbuster narcotic painkiller at the center of the opioid crisis. Relying on thousands of pages of government and corporate archives, dozens of hours of interviews with insiders, and previously classified FBI files, Posner exposes the secrets of the

Sacklers’ rise to power—revelations that have long been buried under a byzantine web of interlocking companies with ever-changing names and hidden owners. The unexpected twists and turns of the Sackler family saga are told against the startling chronicle of a powerful industry that sits at the intersection of public health and profits. “Explosively, even addictively, readable” (Booklist, starred review), Pharma reveals how and why American drug companies have put earnings ahead of patients.

**Death in the City of Light** David King 2011-09-20 The gripping, true story of a brutal serial killer who unleashed his own reign of terror in Nazi-Occupied Paris. As decapitated heads and dismembered body parts surfaced in the Seine, Commissaire Georges-Victor Massu, head of the Brigade Criminelle, was tasked with tracking down the elusive murderer in a twilight world of Gestapo, gangsters, resistance fighters, pimps, prostitutes, spies, and other shadowy figures of the Parisian underworld. But while trying to solve the many mysteries of the case, Massu would unravel a plot of unspeakable deviousness. The main suspect, Dr. Marcel Petiot, was a handsome, charming physician with remarkable charisma. He was the “People’s Doctor,” known for his many acts of kindness and generosity, not least in providing free medical care for the poor. Petiot, however, would soon be charged with twenty-seven murders, though authorities suspected the total was considerably higher, perhaps even as many as 150. Petiot's trial quickly became a circus. Attempting to try all twenty-seven cases at once, the prosecution stumbled in its marathon cross-examinations, and Petiot, enjoying the spotlight, responded with astonishing ease. Soon, despite a team of prosecuting attorneys, dozens of

witnesses, and over one ton of evidence, Petiot's brilliance and wit threatened to win the day. Drawing extensively on many new sources, including the massive, classified French police file on Dr. Petiot, *Death in the City of Light* is a brilliant evocation of Nazi-Occupied Paris and a harrowing exploration of murder, betrayal, and evil of staggering proportions.

**SAS Nazi Hunters** Damien Lewis 2015-10-08 'A humbling, inspiring account of some of the real founders of modern day Special Forces soldiering' Bear Grylls *The Nazi Hunters* is the incredible, hitherto untold story of the most secret chapter in the SAS's history. Officially, the world's most elite special forces unit was dissolved at the end of the Second World War, and not reactivated until the 1950s. Among their last actions was a disastrous commando raid into occupied France in 1944, which ended in the capture, torture and execution of 31 soldiers. It can now be revealed that the SAS never was dissolved: it lived on, commanded personally by Churchill and hidden even from the British government. They were tasked with hunting through the ruins of the Reich for the SS commanders responsible for the murder of their comrades, including many who had escaped the failed justice of the Nuremberg trials. Along the way, they discovered before anyone else the full horror of Hitler's regime, and the growing threat from Stalin's Russia. Still studied by the SAS today and a central part of their founding myth, the story of the Nazi hunters is now told by bestselling author Damien Lewis.

Since first publication in 1947, the diary has been read by tens of millions of people in many different translations. **Hell's Cartel** Diarmuid Jeffreys 2010-01-05 The

remarkable rise and shameful fall of one of the twentieth century's greatest conglomerates At its peak in the 1930s, the German chemical conglomerate IG Farben was one of the most powerful corporations in the world. To this day, companies formerly part of the Farben cartel—the aspirin-maker Bayer, the graphics supplier Agfa, the plastics giant BASF—continue to play key roles in the global market. IG Farben itself, however, is remembered mostly for its infamous connections to the Nazi Party and its complicity in the atrocities of the Holocaust. After the war, Farben's leaders were tried for crimes that included mass murder and exploitation of slave labor. In Hell's Cartel, Diarmuid Jeffreys presents the first comprehensive account of IG Farben's rise and fall, tracing the enterprise from its nineteenth-century origins, when the discovery of synthetic dyes gave rise to a vibrant new industry, through the upheavals of the Great War era, and on to the company's fateful role in World War II. Drawing on extensive research and original interviews, Hell's Cartel sheds new light on the codependence of industry and the Third Reich, and offers a timely warning against the dangerous merger of politics and the pursuit of profit.

**Your Pharmacist Is a Whore** Kim Ankenbruck 2018-09-11 If you think the big retail pharmacy chains and hospital corporations are concerned about your safety, think again. Today's pharmacists are struggling to keep patients safe while meeting the ever escalating demands of their employers. In her book "Your Pharmacist is a Whore, How pharmacists lost control of their profession and why you should care," Kim Ankenbruck, a 34 year pharmacy veteran, points out the danger you face every time you get a prescription or medication order filled. While pharmacists are incredibly detail oriented and excellent multitaskers by nature, the current workplace is chaotic and stressful due to the increased demands of upper management, coupled with staff cuts and the promotion of non pharmacist personnel over the pharmacists. At the end of the book, Kim provides contact information and sample letters you can send to both government agencies and the CEO's of the various chain pharmacies. The letters bring up many of the issues experienced by patients, as well as holding the powers that be accountable for their part in these shortcomings and demanding that they clean up their act. This book is a call to action for pharmacists and patients to stand up and push for positive change in the healthcare system, as well as an informative behind the scenes look at the profession and business of pharmacy.

**Deadly Cure** Lawrence Goldstone 2017-11-07 A remarkable

new historical thriller by New York Times notable mystery author Lawrence Sanders that evokes the New York City of 1899. In 1899, in Brooklyn, New York, Dr. Noah Whitestone is called urgently to his wealthy neighbor's house to treat a five-year-old boy with a shocking set of symptoms. When the child dies suddenly later that night, Noah is accused by the boy's regular physician—the powerful and politically connected Dr. Arnold Frias—of prescribing a lethal dose of laudanum. To prove his innocence, Noah must investigate the murder—for it must be murder—and confront the man whom he is convinced is the real killer. His investigation leads him to a reporter for a muckraking magazine and a beautiful radical editor who are convinced that a secret, experimental drug from Germany has caused the death of at least five local children, and possibly many more. Noah is drawn into a dangerous world of drugs, criminals, and politics, which threatens not just his career but also his life. Sanders weaves a savvy tale of intrigue and stunning twists that incorporates real-life historical figures and events while richly recreating the closing days of the nineteenth century—a time when American might was on the march in the Pacific, medicine was poised to leap into a new era, radical politics threatened the status quo, and the role of women in American society was undergoing profound change.

**The Grand Turk** John Freely 2009-02-28 Sultan Mehmet II, the Grand Turk, known to his countrymen as Fatih, 'the Conqueror', and to much of Europe as 'the present Terror of the World', was once the most feared and powerful ruler in the world. The seventh of his line to rule the Ottoman Turks, Mehmet was barely 21 when he conquered Byzantine Constantinople, which became Istanbul and the capital of his mighty empire. Mehmet reigned for 30 years, during which time his armies extended the borders of his empire halfway across Asia Minor and as far into Europe as Hungary and Italy. Three popes called for crusades against him as Christian Europe came face to face with a new Muslim empire. Mehmet himself was an enigmatic figure. Revered by the Turks and seen as a cruel and brutal tyrant by the west, he was a brilliant military leader but also a renaissance prince who had in his court Persian and Turkish poets, Arab and Greek astronomers and Italian scholars and artists. In this, the first biography of Mehmet for 30 years, John Freely vividly brings to life the world in which Mehmet lived and illuminates the man behind the myths, a figure who dominated both East and West from his palace above the Golden Horn and the Bosphorus, where an inscription still hails him as, 'Sultan of the two seas, shadow of God in the two worlds, God's servant between the two horizons, hero of the water and the land, conqueror of the stronghold of Constantinople.'

**Do the Birds Still Sing in Hell ?** Horace Greasley

2014-06-10 Horace 'Jim' Greasley was twenty years of age in the spring of 1939 when Adolf Hitler invaded Czechoslovakia and latterly Poland. There had been whispers and murmurs of discontent from certain quarters and the British government began to prepare for the inevitable war. After seven weeks training with the 2nd/5th Battalion Leicester, he found himself facing the might of the German army in a muddy field south of Cherbourg, in Northern France, with just thirty rounds of ammunition in his weapon pouch. Horace's war didn't last long. He was taken prisoner on 25th May 1940 and forced to endure a ten week march across France and Belgium en - route to Holland. Horace survived...barely...food was scarce; he took nourishment from dandelion leaves, small insects and occasionally a secret food package from a sympathetic villager, and drank rain water from ditches. Many of his fellow comrades were not so fortunate. Falling by the side of the road through sheer exhaustion and malnourishment meant a bullet through the back of the head and the corpse left to rot. After a three day train journey without food and water, Horace found himself incarcerated in a prison camp in Poland. It was there he embarked on an incredible love affair with a German girl interpreting for his captors. He experienced the sweet taste of freedom each time he escaped to see her, yet incredibly he made his way back into the camp each time, sometimes two, three times every week. Horace broke out of the camp then crept back in again under the cover of darkness after his natural urges were fulfilled. He brought food back to his fellow prisoners to supplement their meagre rations. He broke out of the camp over two hundred times and towards the end of the war even managed to bring radio parts back in. The BBC news would

be delivered daily to over 3,000 prisoners. This is an incredible tale of one man's adversity and defiance of the German nation.

*The Secret Holocaust Diaries* 2011-03-21 The author documents her experiences during World War II through a secret diary she kept during her time in a concentration camp and the years following the war.

*Architect of Death at Auschwitz* John W. Primomo 2020-07-24 Rudolf Hoss has been called the greatest mass murderer in history. As the longest-serving commandant of Auschwitz, he supervised the killing of more than 1.1 million people. Unlike many of his Nazi colleagues who denied either knowing about or participating in the Holocaust, Hoss remorselessly admitted, both at the Nuremberg war crimes trial and in his memoirs, that he sent hundreds of thousands of Jews to their deaths in the gas chambers, frankly describing the killing process. His "innovations" included the use of hydrogen cyanide (derived from the pesticide Zyklon B) in the camp's gas chambers. Hoss lent his name to the 1944 operation that gassed 430,000 Hungarian Jews in 56 days, exceeding the capacity of the Auschwitz's crematoria. This biography follows Hoss throughout his life, from his childhood through his Nazi command and eventual reckoning at Nuremberg. Using historical records and Hoss' autobiography, it explores the life and mind of one of history's most notorious and sadistic individuals.

*After Auschwitz* Eva Schloss 2013-04-11 Eva was arrested by the Nazis on her fifteenth birthday and sent to Auschwitz. Her survival depended on endless strokes of luck, her own determination and the love and protection of her mother Fritzi, who was deported with her. When Auschwitz was liberated, Eva and Fritzi began the long

journey home. They searched desperately for Eva's father and brother, from whom they had been separated. The news came some months later. Tragically, both men had been killed. Before the war, in Amsterdam, Eva had become friendly with a young girl called Anne Frank. Though their fates were very different, Eva's life was set to be entwined with her friend's for ever more, after her mother Fritzi married Anne's father Otto Frank in 1953. This is a searingly honest account of how an ordinary person survived the Holocaust. Eva's memories and descriptions are heartbreakingly clear, her account brings the horror as close as it can possibly be. But

this is also an exploration of what happened next, of Eva's struggle to live with herself after the war and to continue the work of her step-father Otto, ensuring that the legacy of Anne Frank is never forgotten.

I Was a Doctor in Auschwitz Gisella Perl 2019-02-28  
Gisella Perl's memoir is an extraordinarily candid account of women's extreme efforts to survive Auschwitz. It was the first memoir by a woman survivor and established the model for understanding the gendered Nazi policies and practices targeting Jewish women as racially poisonous.
