Days of Awe Atalia Omer 2019 For many Jewish people in the mid-twentieth century, Zionism was an unquestionable tenet of what it meant to be Jewish. Seventy years later, a growing number of American Jews are instead expressing solidarity with Palestinians, questioning old allegiances to Israel. How did that transformation come about? What does it mean for the future of Judaism? In Days of Awe, Atalia Omer examines this shift through interviews with a new generation of Jewish activists, rigorous data analysis, and fieldwork within a progressive synagogue community. She highlights people politically inspired by social justice campaigns including the Black Lives Matter movement and protests against anti-immigration policies. These activists, she shows, discover that their ethical outrage at US policies extends to Israel's treatment of Palestinians. For these American Jews, the Jewish history of dispossession and diaspora compels a search for solidarity with liberation movements. This shift produces innovations within Jewish tradition, including

multi-racial and intersectional conceptions of Jewishness and movements to reclaim prophetic Judaism. Charting the rise of such religious innovation, Omer points toward the possible futures of post-Zionist Judaism.

Sport and the American Occupation of the Philippines
Gerald R. Gems 2016-08-05 This interdisciplinary study analyzes the role of sport during the American occupation of the Philippines and how it related to race, religion, government, and more. It examines how sport was used by colonial authorities to achieve occupation aims and argues that similar strategies continue to be prominent factors in U.S. foreign policy.

The Certainty of Uncertainty Mark A. Schaefer 2018-08-23
The world is full of people who are very certain--in politics, in religion, in all manner of things. In

addition, political, religious, and social organizations are marketing certainty as a cure all to all life's problems. But is such certainty possible? Or even good? The Certainty of Uncertainty explores the question of certainty by looking at the reasons human beings crave certainty and the religious responses we frequently fashion to help meet that need. The book takes an in-depth view of religion, language, our senses, our science, and our world to explore the inescapable uncertainties they reveal. We find that the certainty we crave does not exist. As we reflect on the unavoidable uncertainties in our world, we come to understand that letting go of certainty is not only necessary, it's beneficial. For, in embracing doubt and uncertainty, we find a more meaningful and courageous religious faith, a deeper encounter with mystery, and a way to build strong relationships across religious and philosophical lines. In The Certainty of Uncertainty, we see that embracing our belief systems with humility and uncertainty can be transformative for ourselves and for our world.

Performing the Gospel Deborah Sokolove 2019-03-12
What is the difference between good worship and good entertainment? Too often, people disparage some aspect of worship by calling it "just entertainment" or "just a performance." Others say that they do not need to go to church because they have profound spiritual or even religious experiences at concerts, plays, movies, or dances. How is worship different from these performing arts? How is art different from entertainment? This book looks at the history of the performing arts both in worship and as worship, with particular attention to the attitudes that shape our ideas about both worship and entertainment. Working definitions of words like "art," "excellence," "liturgy," and "play" help to illuminate

what different people mean when they use them in conversations about Christian worship. Putting theological, scriptural, and practical writings on worship and the performing arts in conversation with interviews with dancers, musicians, actors, preachers, and liturgical scholars, this volume is intended to help pastors, performers, and everyone who plans, leads, or cares about worship talk with one another in mutually respectful and helpful ways.

Before the Religious Right Gene Zubovich 2022-03-11 In the same way that the rise of the New Right cannot be understood apart from the mobilization of evangelicals, Gene Zubovich shows that the rise of American liberalism in the twentieth century cannot be understood without a historical account of the global political mobilization of liberal Protestants.

Freedom of Religion at Stake Dion A. Forster 2019-11-01 How can freedom of religion protect the dignity of every human being and safeguard the well-being of creation? This question arises when considering the competing claims among faith traditions, states, and persons. Freedom of religion or belief is a basic human right, and yet it is sometimes used to undermine other human rights. This volume seeks to unpack and wrestle with some of these challenges. In order to do so scholars were invited from different contexts in Africa and Europe to write about freedom of religion from various angles. How should faith traditions in a minority position be protected against majority claims and what is the responsibility of the religious communities in this task? When does the state risk overstepping its boundaries in the delicate balance between freedom of religion and other human rights? How can new voices, who claim their human rights in relation to gender roles,

reproductive rights, and as sexual minorities, be heard within their faith traditions? These are some of the questions that are raised by the authors. This is a book for all who are engaged in faith communities, leaders as well as people trying to be recognized. It is also important reading for all interested in international legal frameworks for freedom of religion, state advisers, and human right defenders.

Something Seems Strange Anthony B. Bradley 2016-09-21 Life happens at the intersection of faith and culture. Whether we are Christians or not, we all have some narrative about the way the world ought to be that shapes how we view the world and live our lives. In this book, Anthony Bradley explores those intersections in ways that analyze and direct our imaginations toward the best practices that lead to human flourishing. Economics, political philosophy, sociology, psychology, and theology are just a few of the disciplines used in an attempt to make sense of a world where things are not the way they are supposed to be. Something does seem strange about the world, but we are not left without tools and principles that we need to make life work at the intersections of faith and culture. The aim of *Something Seems Strange* is to provide a model of thinking about life at those intersections, so that people can live freely according to their God-given design.

Swimming Up Stream 2: Agency and Urgency in the Education of Black Men: New Directions for Adult and Continuing Education, Number 150 Drayton 2016-07-05 This volume is the continuation of a two-part series that focuses on salient topics and issues affecting Black males as they engage in adult education and learning. Considering the historical and current effects on the

way these men participate in adult education, this volume broadens the conversations around adult Black males' educational experiences by utilizing academic research as well as program descriptions and personal narratives with a concern for the "lived experiences." More specifically, the authors explore: the agency of Black men in carving out pathways to success, the programs that support these endeavors, and the role of civil society in facilitating or inhibiting their progress. Topics covered include the digital divide, sports, professional career development, sexuality, role of religion, college as a choice, and the Black Lives Matter initiative. Practitioners will be encouraged to reflect on their own practices as they work toward engagement of Black males in learning communities. This is the 150th volume of the Jossey Bass series New Directions for Adult and Continuing Education. Noted for its depth of coverage, it explores issues of common interest to instructors, administrators, counselors, and policymakers in a broad range of education settings, such as colleges and universities, extension programs, businesses, libraries, and museums.

Feminist Praxis against U.S. Militarism Nami Kim 2019-12-15 Feminist Praxis against U.S. Militarism provides critical feminist and womanist analyses of U.S. militarism that challenge the ongoing U.S. neoliberal military-industrial complex and its multivalent violence that destroys people's lives, especially women and other

vulnerable populations. It highlights the intentional critique of U.S. militarism from feminist/womanist perspectives that seek to show the ways in which gender, race/ethnicity, sexuality, and violence intersect to threaten women's lives, especially women of color's lives, and the broader environment upon which women's lives are dependent. Most of all, this volume challenges the readers to understand the U.S. as the warfare, counterterrorism, carceral state and its devastating effects on the everyday lives of women, especially women of color, locally, nationally, and globally. This volume also helps readers understand the racialized gendered impacts of U.S. militarism in conjunction with the ongoing global economies of dispossession and militarized violence across the borders of nation-states. Interrogating U.S. military interventions in "other" countries can show how the U.S. War on Terror directly affects U.S. "domestic" affairs and daily lives in the United States.

The Next Mormons Jana Riess 2019-02-01 American Millennials--the generation born in the 1980s and 1990s--have been leaving organized religion in unprecedented numbers. For a long time, the Church of Jesus Christ of Latter-day Saints was an exception: nearly three-quarters of people who grew up Mormon stayed that way into adulthood. In *The Next Mormons*, Jana Riess demonstrates that things are starting to change. Drawing on a large-scale national study of four generations of current and former Mormons as well as dozens of in-depth personal interviews, Riess explores the religious beliefs and behaviors of young adult Mormons, finding that while their levels of belief remain strong, their institutional loyalties are less certain than their parents' and grandparents'. For a growing number of

Millennials, the tensions between the Church's conservative ideals and their generation's commitment to individualism and pluralism prove too high, causing them to leave the faith--often experiencing deep personal anguish in the process. Those who remain within the fold are attempting to carefully balance the Church's strong emphasis on the traditional family with their generation's more inclusive definition that celebrates same-sex couples and women's equality. Mormon families are changing too. More Mormons are remaining single, parents are having fewer children, and more women are working outside the home than a generation ago. *The Next Mormons* offers a portrait of a generation navigating between traditional religion and a rapidly changing culture.

Decolonizing Mission Partnerships Taylor Walters Denyer 2020-06-26 We all know that healthy partnerships are essential to fruitful boundary-crossing ministries, but how exactly do we create them? What barriers must be overcome, and what self-examination must we do? How do the legacies of colonialism, racism, and unhealed trauma impact missional collaborations today? In this doctoral thesis, Denyer reflects on these questions as she examines the history of relational dynamics between American and Congolese United Methodists in the North Katanga Conference (DR Congo). By surveying memoirs, magazines, and journals, and conducting in-depth interviews, Denyer presents a complex and multifaceted example of a partnership that is in the process of decolonizing. More than just a history lesson, *Decolonizing Mission Partnerships* presents the questions, hard truths, pitfalls, and toxic assumptions we must face when attempting to be in mission together.

Colours of the Kingdom Nicole Ong 2021-04-09 This book

presents true stories and reflections of Christians in Singapore about grappling with issues of ethnicity or nationality in the church. We hear from individuals who have been on the receiving end of racism as well as inclusive hospitality, individuals who have been convicted by the Lord to repent of their prejudices, and church leaders who are working on intentionally creating inclusive spaces that celebrate ethnic and national diversity. Contributors also share theological, pastoral and practical approaches to this issue.

Transitioning from an Ethnic to a Multicultural Church

Byoung Ok Koo 2019-12-20 Multicultural churches help us understand God's will for us to become one in this multicultural world and experience a heavenly gathering in advance. This book, based on case studies of four multicultural churches, provides insights and knowledge regarding minority-dominant multicultural churches in the United States. Many multicultural churches in America are mainly concerned about racial reconciliation between the white and the black. On the other hand, resources concerning minority-dominant multicultural churches are scant. With the special attention on Korean immigrant churches, this book contributes to the body of knowledge regarding minority-dominant multicultural churches. Specifically, this book provides a model transition process, called the Windmill T-process, to facilitate the movement of monocultural/monoethnic churches in taking steps towards acquiring the characteristics of multicultural churches. In addition, this book touches on the issue of evangelism in the multicultural church. Although there is limited insight, the book describes what factors first draw different racial/ethnic people to a church and what factors cause them to stay there. All in all, this book will guide you

to a deeper understanding on multicultural churches and its practices for all nations beyond ethnic/racial identities.

Detroit Is No Dry Bones Camilo J Vergara 2016-11-16

"Detroit has lost nearly sixty percent of its population since the mid-1950s. Ethnographer and photographer Camilo Josae Vergara has traveled to Detroit to document not only the city's precipitous decline but also how its residents have survived. Through annual visits to Detroit over the past twenty five years, Vergara has sought to capture the image of the inner city and its changes over time. From the 1970s through the 1990s, these changes were almost all for the worse, as the built fabric of the city was erased through neglect and abandonment. But over the last decade Detroit has seen the beginnings of a positive transformation, and *Detroit Is No Dry Bones* provides unique documentation of the revival and its urbanistic possibilities. Beyond the fate of the city's buildings themselves, Vergara has consistently sought to illumine the lives of Detroit's people. Not only has he shown the impact of depopulation, disinvestment, and abandonment on their lives during the worst years of the urban crisis; but he has shown their resilience as well. The photographs are organized in part around the way people have re-used and re-purposed structures from the past. Vergara, for example, is unique in his documentation of local churches that have re-occupied old bank buildings and other impressive structures from the past and turned them into something unexpectedly powerful architecturally as well as spiritually"--

Post-Christian Interreligious Liberation Theology Hussam S. Timani 2019-11-29 This book explores the ideals of liberation theology from the perspectives of major religious traditions, including Islam, Christianity, Judaism, Buddhism, and the neo-Vedanta and Advaita Hindu traditions. The goal of this volume is not to explain the Christian liberation theology tradition and then assess whether the non-Christian liberation theologies meet the Christian standards. Rather, authors use comparative/interreligious methodologies to offer new insights on liberation theology and begin a dialogue on how to build interreligious liberation theologies. The goal is to make liberation theology more inclusive of religious diversity beyond traditional Christian categories.

Women and Religion in Zimbabwe Ezra Chitando 2022-08 This volume reaffirms the fact that religion and culture often serve as a double-edged sword, that is, they can either obstruct or enrich African women's flourishing. Drawing insights from African women's experiences of religion and culture, the authors proffer gender sensitive and life-giving applications of African religio-cultural traditions.

distribute them to my planning team, worship team and other staff." - The Rev. Dr. Bruce A. Jones, senior pastor, La Plata UMC in La Plata, (Md.) A CALL TO ACTION: Practically Reversing the Trends of Mass Incarceration Dr. Herron Keyon Gaston 2019-02-28
A Call to Action By: Dr. Herron Keyon Gaston
A Call to Action: Practically Reversing the Trends of Mass Incarceration explores and establishes a blueprint for

United Methodist Churches based on the current Mission Plan for Restorative Justice Ministries (MPRJM). This Mission Plan could be used internally or externally within the United Methodist Church and beyond to begin to deal with the issues associated with the large numbers of persons leaving the prison system and reentering communities where the connectional system of the United Methodist Churches is established, and where other church denominations are in general, to assist retuning prisoners with reentry and restorative justice programs and ministries. A Call to Action is for the United Methodist Church to use its historical work in this area along with its unique reformatory connectional system. The United Methodist Church is poised to lead in this area because of its creed, structure, and connectional emphasis on mission work, outreach, and methodical steadfastness to deliver and foster justice and the restorative process among former prisoners. The Summerfield United Methodist Church Prison Reentry Model in Bridgeport, Connecticut, was identified as one of the unique prison reentry and restorative justice type programs to further explore this initiative. Using the Summerfield model as a starting point for this project, Gaston invited parishioners to participate in focus group sessions in May 2017. A group of twenty-five parishioners of varying socioeconomic backgrounds volunteered to participate. The main discussion centered on the current prison fellowship ministry and whether members believed that they were making a difference in their own community. This book has implications for the ministerial practice for dealing with those who have transgressed – and how the United Methodist Church must use its spiritual and connectional resources to reform, redeem, and restore formerly incarcerated individuals

back to God and to humanity.

In Case of Katrina Ellen Jeffery Blue 2016-08-04 Since six months after landfall, Ellen Blue has taught "The Church's Response to Katrina." It sidesteps disaster response, where clearly the church should be involved. What was unclear was how leaders in a connectional denomination like United Methodism should decide which churches to merge or decommission after floods destroyed seventy churches and displaced ninety pastors, and no one knew how many members would return. Katrina gave the church a chance to re-make itself without deteriorating structures in no-longer-thriving neighborhoods. Yet as members returned to chaos, they sought solace. Should the church meet needs for Sanctuary and reassurance or use newfound flexibility to seek justice? In Case of Katrina examines leadership strategies and the

theological convictions that underlay them during the struggle to decide. The larger United Methodist Church controls real estate, and the hierarchy had the power to choose. Instead they let verdicts spring primarily from congregants and pastors on the ground through a long, controversial process. Recovery has been entwined with issues of race and class. Cooperation among African American and Anglo congregations has birthed vibrant multi-racial worship and ministries. Yet other prophetic ministry was left undone, and it should set the agenda for the next decade.

The First Black Archaeologist John W. I. Lee 2022-01-03 An inspiring portrait of an overlooked pioneer in Black history and American archaeology *The First Black Archaeologist* reveals the untold story of a pioneering African American classical scholar, teacher, community leader, and missionary. Born into slavery in rural Georgia, John Wesley Gilbert (1863-1923) gained national prominence in the early 1900s, but his accomplishments are little known today. Using evidence from archives across the U.S. and Europe, from contemporary publications, and from newly discovered documents, this book chronicles, for the first time, Gilbert's remarkable journey. As we follow Gilbert from the segregated public schools of Augusta, Georgia, to the lecture halls of Brown University, to his hiring as the first black faculty member of Augusta's Paine Institute, and through his travels in Greece, western Europe, and the Belgian Congo, we learn about the development of African American intellectual and religious culture, and about the enormous achievements of an entire generation of black students and educators. Readers interested in the early development of American archaeology in Greece will find an entirely new perspective here, as Gilbert

was one of the first Americans of any race to do archaeological work in Greece. Those interested in African American history and culture will gain an invaluable new perspective on a leading yet hidden figure of the late 1800s and early 1900s, whose life and work touched many different aspects of the African American experience.

United Methodist

Program Calendars serve not only as organizational and communication tools, but as reminders of our commitment to do God's work. Please fill your calendar pages with ministries that change the world, events that answer the needs of your community, names of people willing to be "on call" for God's good, and with notes reminding you of why you do what you do as a United Methodist.
