**The Imperial Sublime** Harsha Ram 2006-03-31 Review: "The Imperial Sublime examines the rise of the Russian empire as a literary theme alongside the creation and evolution of modern Russian poetry between the 1730s and 1840. Arising from the need to celebrate the Russian state and its expanding territories, the imperial theme quickly became enmeshed in a wider range of issues, from formal problems of genre, style, and lyric voice to the vexed relationship between the poet and Russia's ruling monarchs." "Part of a growing body of recent scholarship that has examined Russian representations of Russia's southern borderlands in the

light of European orientalism and imperialism, *The Imperial Sublime* shows how the broader cultural discourses of empire can be adapted and inflected by a national literary system."--BOOK JACKET

*No Medium* Craig Dworkin 2013-02-15 Close readings of ostensibly "blank" works—from unprinted pages to silent music—that point to a new understanding of media. In *No Medium*, Craig Dworkin looks at works that are blank, erased, clear, or silent, writing critically and substantively about works for which there would seem to be not only nothing to see but nothing to say. Examined closely, these ostensibly contentless works of art, literature, and music point to a new understanding of media and the limits of the artistic object. Dworkin considers works predicated on blank sheets of paper, from a fictional collection of poems in Jean Cocteau's *Orphée* to the actual publication of a ream of typing paper as a book of poetry; he compares Robert Rauschenberg's *Erased De Kooning Drawing* to the artist Nick Thurston's erased copy of Maurice Blanchot's *The Space of Literature* (in which only Thurston's marginalia were visible); and he scrutinizes the sexual politics of photographic representation and the implications of obscured or obliterated subjects of photographs.

Reexamining the famous case of John Cage's *4'33"*, Dworkin links Cage's composition to Rauschenberg's *White Paintings*, Ken Friedman's *Zen for Record* (and Nam June Paik's *Zen for Film*), and other works, offering also a "guide to further listening" that surveys more than 100 scores and recordings of "silent" music. Dworkin argues that we should understand media not as blank, base things but as social events, and that there is no medium, understood in isolation, but only and always a plurality of media: interpretive activities taking place in socially inscribed space.

*Working People in Alberta* Alvin Finkel 2012-02-01 *Working People in Alberta* traces the history of labour in Alberta from the period of First Nations occupation to the present. Drawing on over two hundred interviews with labour leaders, activists, and ordinary working people, as well as on archival records, the volume gives voice to the people who have toiled in Alberta over the centuries. In so doing, it seeks to counter the view of Alberta as a one-class, one-party, one-ideology province, in which distinctions between those who work and those who own are irrelevant. Workers from across the generations tell another tale, of an ongoing collective struggle to improve their economic and social circumstances in the face of a dominant, exploitative elite. Their stories are set within a sequential analysis of provincial politics and economics, supplemented by chapters on women and the labour movement and on minority workers of colour and their quest for social justice. Published on the occasion of the 100th anniversary of the Alberta Federation of Labour, *Working People in Alberta* contrasts the stories of workers who were union members and those who were not. In its depictions of union organizing drives, strikes, and working-class life in cities and towns, this lavishly illustrated volume creates a composite portrait of the men and women who have worked to build and sustain the province of Alberta.

**The Persian Boy** Mary Renault 2014-08-07 The Persian Boy traces the last years of Alexander's life through the eyes of his lover, Bagoas. Abducted and gelded as a boy, Bagoas is sold as a courtesan to King Darius of Persia, but finds freedom with Alexander the Great after the Macedon army conquers his homeland. Their relationship sustains Alexander as he weathers assassination plots, the demands of two foreign wives, a sometimes mutinous army, and his own ferocious temper. After Alexander's mysterious death, we are left wondering if this Persian boy understood the great warrior and his ambitions better than anyone.
